Tender form, conditions of contract, specifications and contract drawings can be downloaded from the eTendering portal of Public Works Department, Government of Maharashtra i.e. https://pwd.maharashtra.etenders.in after entering the details, payment of Rs. 500/- (Rupees Five Hundred only) should be paid online using payment gateway. The fees of tender document will be non refundable. Further information regarding the work can be obtained from the above office.

Tender acceptance is subject to verification of documents uploaded by the contractor. Uploading of any false information or document by the contractor will result in rejection of bid and action as may deem fit will be taken by the department against the contractor.

TENDERING PROCEDURE: -

1.1 A. **Blank Tender Forms.**

Tender Forms can be purchased from the e-Tendering Portal of Public Works Department, Government of Maharashtra i.e. https://pwd.maharashtra.etenders.in after paying Tender Fees via online mode as per the Tender Schedule.

1.2 B **PRE-TENDER CONFERENCE:** -
1.2.1 Pre-tender conference :- **Not Applicable**

1.2.2 The prospective tenderers are free to ask for any additional information or clarification either in writing or orally concerning the work, and the reply to the same will be given by the **Executive Engineer, Public Works Division Wardha** in writing and this clarification referred to as Common Set of Conditions/Deviations, shall form part of tender documents and which will also be common and applicable to all tenderers. In such case the provision in NIT shall prevail. No individual correspondence will be made thereafter with the contractor in this regard.

1.2.3 The tender submitted by the tenderer shall be based on the clarification, additional facility offered (if any) by the Department, and this tender shall be unconditional. Conditional tenders shall be summarily **REJECTED**.

1.2.4 All tenderers are cautioned that tenders containing any deviation from the contractual terms and conditions, specifications or other requirements and conditional tenders will be treated as non responsive. The tenderer should clearly mention in forwarding letter that his offer (in envelope No. 1& 2) does not contain any conditions, deviations from terms and conditions stipulated in the tender.

1.2.5 Tenderers should have valid Class II / III Digital Signature Certificate (DSC) obtained from any Certifying Authorities. In case of requirement of DSC, interested Bidders should go to https://maharashtra.etenders.in/mah/DigitalCerti.asp and follow the procedure mentioned in the document ‘Procedure for application of Digital Certificate’.

1.2.6 The Tenderers have to make a payment of Rs **1038/-** online as service charges for the use of Electronic Tendering during Online Bid Data Decryption and Re-encryption stage of the Tender.

1.2.7 For any assistance on the use of Electronic Tendering System, the Users may call the below numbers:

   Landline No. - 020 - 2531 5555 / 56
   Landline No. - 022 - 2661 1117 (Ext 25 / 26)
   Mobile No. - 91679 69601 / 04 / 14

1.2.8 Tenderers should install the Mandatory Components available on the Home Page of http://maharashtra.etenders.in under the section ‘**Mandatory Components**’ and make the necessary Browser Settings provided under section ‘**Internet Explorer Settings**’

1.3 **Guidelines to Bidders on the operations of Electronic Tendering System of Public Works Department.**

   https://pwd.maharashtra.etenders.in

A. **Pre-requisites to participate in the Tenders processed by PWD:**

   Contractor                  No of Correction                  Executive Engineer
1. **Enrolment and Empanelment of Contractors on Electronic Tendering System:**

The Contractors interested in participating in the Tenders of Public Works Department – processed using the Electronic Tendering System shall be required to enrol on the Electronic Tendering System to obtain User ID.

After submission of application for enrolment on the System, the application information shall be verified by the Authorized Representative of the Service Provider. If the information is found to be complete, the enrolment submitted by the Vendor shall be approved.

For participating in Limited and Restricted tenders the registered vendors have to apply for empanelment on the sub-portal of PWD in an appropriate class of registration. The empanelment will have to be approved by the respective officer from the PWD. Only empanelled vendors will be allowed to participate in such tenders.

The Contractors may obtain the necessary information on the process of enrolment and empanelment either from Helpdesk Support Team or may visit the information published under the link Enrol under the section E-Tendering Toolkit for Bidders on the Home Page of the Electronic Tendering System.

2. **Obtaining a Digital Certificate:**

The Bid Data that is prepared online is required to be encrypted and the hash value of the Bid Data is required to be signed electronically using a Digital Certificate (Class – II or Class – III). This is required to maintain the security of the Bid Data and also to establish the identity of the Contractor transacting on the System.

The Digital Certificates are issued by an approved Certifying Authority authorized by the Controller of Certifying Authorities of Government of India through their Authorized Representatives upon receipt of documents required to obtain a Digital Certificate.

Bid data / information for a particular Tender may be submitted only using the Digital Certificate which is used to encrypt the data / information and sign the hash value during the Bid Preparation and Hash Submission stage. In case during the process of preparing and submitting a
Bid for a particular Tender, the Contractor loses his/her Digital Signature Certificate (i.e. due to virus attack, hardware problem, operating system problem); he / she may not be able to submit the Bid online. Hence, the Users are advised to store his / her Digital Certificate securely and if possible, keep a backup at safe place under adequate security to be used in case of need.

In case of online tendering, if the Digital Certificate issued to an Authorised User of a Partnership Firm is used for signing and submitting a bid, it will be considered equivalent to a no objection certificate / power of attorney to that User to submit the bid on behalf of the Partnership Firm. The Partnership Firm has to authorize a specific individual via an authorization certificate signed by a partner of the firm (and in case the applicant is a partner, another partner in the same form is required to authorise) to use the digital certificate as per Indian Information Technology Act, 2000.

Unless the Digital Certificate is revoked, it will be assumed to represent adequate authority of the Authority User to bid on behalf of the Firm for the Tenders processed on the Electronic Tender Management System of Government of Maharashtra as per Indian Information Technology Act, 2000. The Digital Signature of this Authorized User will be binding on the Firm. It shall be the responsibility of Partners of the Firm to inform the Certifying Authority or Sub Certifying Authority, if the Authorized User changes, and apply for a fresh Digital Signature Certificate. The procedure for application of a Digital Signature Certificate will remain the same for the new Authorised User.

The same procedure holds true for the Authorized Users in a Private / Public Limited Company. In this case, the Authorisation Certificate will have to be signed by the Director of the Company or the Reporting Authority of the Applicant.

For information on the process of application for obtaining Digital Certificate, the Contractors may visit the section Digital Certificate on the Home Page of the Electronic Tendering System.

3. **Recommended Hardware and Internet Connectivity:**

To operate on the Electronic Tendering System, the Contractors are recommended to use Computer System with at least 1 GB of RAM and broadband connectivity with minimum 512 kbps bandwidth.

4. **Set up of Computer System for executing the operations on the Electronic Tendering System:**
To operate on the Electronic Tendering System of Government of Maharashtra, the Computer System of the Contractors is required to be set up. The Contractors are required to install Utilities available under the section Mandatory Installation Components on the Home Page of the System.

The Utilities are available for download freely from the above mentioned section. The Contractors are requested to refer to the E-Tendering Toolkit for Bidders available online on the Home Page to understand the process of setting up the System, or alternatively, contact the Helpdesk Support Team on information/guidance on the process of setting up the System.

5. Payment for Service Provider Fees:

In addition to the Tender Document Fees payable to PWD, the Contractors will have to pay Service Providers Fees of Rs. 1,038/- through online payments gateway service available on Electronic Tendering System. For the list of options for making online payments, the Contractors are advised to visit the link E-Payment Options under the section E-Tendering Toolkit for Bidders on the Home Page of the Electronic Tendering System.

B. Steps to be followed by Contractors to participate in the e-Tenders processed by PWD

1. Preparation of online Briefcase:

All Contractors enrolled on the Electronic Tendering System of Government of Maharashtra are provided with dedicated briefcase facility to store documents/files in digital format. The Contractors can use the online briefcase to store their scanned copies of frequently used documents/files to be submitted as a part of their bid response. The Contractors are advised to store the relevant documents in the briefcase before starting the Bid Preparation and Hash Submission stage.

In case, the Contractors have multiple documents under the same type (e.g. multiple Work Completion Certificates) as mentioned above, the Contractors advised to either create a single .pdf file of all the documents of same type or compress the documents in a single compressed file in .zip or .rar formats and upload the same.

It is mandatory to upload the documents using the briefcase facility. Therefore, the Contractors are advised to keep the documents ready in the briefcase to ensure timely bid preparation.
**Note:** Uploading of documents in the briefcase does not mean that the documents are available to PWD at the time of Tender Opening stage unless the documents are specifically attached to the bid during the online Bid Preparation and Hash Submission stage as well as during Decryption and Re-encryption stage.

2. **Online viewing of Detailed Notice Inviting Tenders:**

The Contractors can view the Detailed Tender Notice along with the Time Schedule (Key Dates) for all the Live Tenders released by PWD on the home page of PWD e-Tendering Portal on http://pwd.maharashtra.etenders.in under the section Recent Online Tender.

3. **Download of Tender Documents:**

The Pre-qualification / Main Bidding Documents are available for free downloading. However to participate in the online tender, the bidder must purchase the bidding documents via online mode by filling the cost of Tender Form Fee.

4. **Online Bid Preparation and Submission of Bid Hash (Seal) of Bids:**

Bid preparation will start with the stage of EMD Payment which bidder has to pay online using any one online pay mode as RTGS, NEFT or payment gateway. For EMD payment, if bidder use NEFT or RTGS then system will generate a challan (in two copies) with unique challan No specific to the tender. Bidder will use this challan in his bank to make NEFT/RTGS Payment via net banking facility provided by bidder's bank.

Bidder will have to validate the EMD payment as a last stage of bid preparation. If the payment is not realised with bank, in that case system will not be able to validate the payment and will not allow the bidder to complete his Bid Preparation stage resulting in nonparticipation in the aforesaid eTender.

**Note:**
* Realisation of NEFT/RTGS payment normally takes 2 to 24 hours, so it is advised to make sure that NEFT/RTGS payment activity should be completed well before time.
* NEFT/RTGS option will be depend on the amount of EMD.
* Help File regarding use of ePayment Gateway can be downloaded from eTendering portal.

Submission of Bids will be preceded by online bid preparation and submission of the digitally signed Bid Hashes (Seals) within the Tender Time Schedule (Key Dates) published in the Detailed Notice Inviting Tender. The Bid Data is to be prepared in the templates provided by the Tendering Authority of PWD. The templates may be either form based, extensible tables and / or uploadable documents. In the form based type of templates and extensible table type of
templates, the Contractors are required to enter the data and encrypt the data using the Digital Certificate.

In the uploadable document type of templates, the Contractors are required to select the relevant document / compressed file (containing multiple documents) already uploaded in the briefcase.

Notes:

a. The Contractors upload a single document or a compressed file containing multiple documents against each unloadable option.

b. The Hashes are the thumbprint of electronic data and are based on one – way algorithm. The Hashes establish the unique identity of Bid Data.

c. The bid hash values are digitally signed using valid Class – II or Class – III Digital Certificate issued any Certifying Authority. The Contractors are required to obtain Digital Certificate in advance.

d. After the hash value of bid data is generated, the Contractors cannot make any change / addition in its bid data. The bidder may modify bids before the deadline for Bid Preparation and Hash Submission as per Time Schedule mentioned in the Tender documents.

e. This stage will be applicable during both, Pre-bid / Pre-qualification and Financial Bidding Processes.

5. Close for Bidding (Generation of Super Hash Values):

After the expiry of the cut – off time of Bid Preparation and Hash Submission stage to be completed by the Contractors has lapsed, the Tender will be closed by the Tender Authority.

The Tender Authority from PWD shall generate and digitally sign the Super Hash values (Seals).

6. Decryption and Re-encryption of Bids (submitting the Bids online):

After the time for generation of Super Hash values by the Tender Authority from PWD has lapsed, the Contractors have to make the online payment of Rs. 1,038/- towards the fees of the Service Provider.

After making online payment towards Fees of Service Provider, the Contractors are required to decrypt their bid data using their Digital Certificate and immediately re-
encrypt their bid data using the Public Key of the Tendering Authority. The Public Key of the Tendering Authority is attached to the Tender during the Close for Bidding stage.

**Note:** The details of the Processing Fees shall be verified and matched during the Technical Opening stage.

At this time, the Contractors are also required to upload the files for which they generated the Hash values during the Bid Preparation and Hash Submission stage.

The Bid Data and Documents of only those Contractors who have submitted their Bid Hashes (Seals) within the stipulated time (as per the Tender Time Schedule), will be available for decryption and re-encryption and to upload the relevant documents from Briefcase. A Contractor who has not submitted his Bid Preparation and Hash Submission stage within the stipulated time will not be allowed to decrypt / re-encrypt the Bid data / submit documents during the stage of Decryption and Re-encryption of Bids (submitting the Bids online).

7. **Shortlisting of Contractors for Financial Bidding Process:**

The Tendering Authority will first open the Technical Bid documents of all Contractors and after scrutinizing these documents will shortlist the Contractors who are eligible for Financial Bidding Process. The shortlisted Contractors will be intimated by email.

8. **Opening of the Financial Bids:**

The Contractors may remain present in the Office of the Tender Opening Authority at the time of opening of Financial Bids. However, the results of the Financial Bids of all Contractors shall be available on the PWD e-Tendering Portal immediately after the completion of opening process.

9. **Tender Schedule (Key Dates):**

The Contractors are strictly advised to follow the Dates and Times allocated to each stage under the column “Contractor Stage” as indicated in the Time Schedule in the Detailed Tender Notice for the Tender. All the online activities are time tracked and the Electronic Tendering System enforces time-locks that ensure that no activity or transaction can take place outside the Start and End Dates and Time of the stage as defined in the Tender Schedule.
At the sole discretion of the Tender Authority, the time schedule of the Tender stages may be extended

C) Terms and Conditions For Online-Payments

The Terms and Conditions contained herein shall apply to any person (“User”) using the services of PWD Maharashtra, hereinafter referred to as “Merchant”, for making Tender fee and Earnest Money Deposit(EMD) payments through an online Payment Gateway Service (“Service”) offered by ICICI Bank Ltd. in association with E Tendering Service provider and Payment Gateway Service provider through PWD Maharashtra website i.e. http://pwd.maharashtra.etenders.in. Each User is therefore deemed to have read and accepted these Terms and Conditions.

Privacy Policy

The Merchant respects and protects the privacy of the individuals that access the information and use the services provided through them. Individually identifiable information about the User is not willfully disclosed to any third party without first receiving the User’s permission, as covered in this Privacy Policy.

This Privacy Policy describes Merchant’s treatment of personally identifiable information that Merchant collects when the User is on the Merchant’s website. The Merchant does not collect any unique information about the User (such as User’s name, email address, age, gender etc.) except when you specifically and knowingly provide such information on the Website. Like any business interested in offering the highest quality of service to clients, Merchant may, from time to time, send email to the User and other communication to tell the User about the various services, features, functionality and content offered by Merchant’s website or seek voluntary information from The User.

Please be aware, however, that Merchant will release specific personal information about the User if required to do so in the following circumstances:

a) in order to comply with any valid legal process such as a search warrant, statute, or court order, or available at time of opening the tender

b) if any of User’s actions on our website violate the Terms of Service or any of our guidelines for specific services, or

c) to protect or defend Merchant’s legal rights or property, the Merchant’s site, or the Users of the site or:

d) to investigate, prevent, or take action regarding illegal activities, suspected fraud, situations involving potential threats to the security, integrity of Merchant’s website/offers.

General Terms and Conditions For E-Payment

1. Once a User has accepted these Terms and Conditions, he/ she may register on Merchant’s website and avail the Services.

2. Merchant’s rights, obligations, undertakings shall be subject to the laws in force in India, as well as any directives/ procedures of Government of India, and nothing contained in these Terms and Conditions shall be in derogation of Merchant’s right to comply with any law enforcement agencies request or requirements relating to any User’s use of the website or information provided to or gathered by Merchant with respect to such use. Each User accepts and agrees that the provision of details of his/her use of the Website to regulators or police or to any other third party in order to resolve disputes or complaints which relate to the Website shall be at the absolute discretion of Merchant.

3. If any part of these Terms and Conditions are determined to be invalid or unenforceable pursuant to applicable law including, but not limited to, the warranty disclaimers and liability limitations set forth herein, then the invalid or unenforceable provision will be deemed superseded by a valid, enforceable provision that most closely matches the intent of the original provision and the remainder of these Terms and Conditions shall continue in effect.
4. These Terms and Conditions constitute the entire agreement between the User and Merchant. These Terms and Conditions supersede all prior or contemporaneous communications and proposals, whether electronic, oral, or written, between the User and Merchant. A printed version of these Terms and Conditions and of any notice given in electronic form shall be admissible in judicial or administrative proceedings based upon or relating to these Terms and Conditions to the same extent and subject to the same conditions as other business documents and records originally generated and maintained in printed form.

5. The entries in the books of Merchant and/or the Payment Gateway Service Providers kept in the ordinary course of business of Merchant and/or the Payment Gateway Service Providers with regard to transactions covered under these Terms and Conditions and matters therein appearing shall be binding on the User and shall be conclusive proof of the genuineness and accuracy of the transaction.

6. **Refund For Charge Back Transaction:** In the event there is any claim for/ of charge back by the User for any reason whatsoever, such User shall immediately approach Merchant with his/ her claim details and claim refund from Merchant alone. Such refund (if any) shall be effected only by Merchant via payment gateway or by means of a demand draft or such other means as Merchant deems appropriate. No claims for refund/ charge back shall be made by any User to the Payment Gateway Service Provider(s) and in the event such claim is made it shall not be entertained.

7. In these Terms and Conditions, the term “Charge Back” shall mean, approved and settled credit card or net banking purchase transaction(s) which are at any time refused, debited or charged back to merchant account (and shall also include similar debits to Payment Gateway Service Provider's accounts, if any) by the acquiring bank or credit card company for any reason whatsoever, together with the bank fees, penalties and other charges incidental thereto.

8. **Refund for fraudulent/duplicate transaction(s):** The User shall directly contact Merchant for any fraudulent transaction(s) on account of misuse of Card/ Bank details by a fraudulent individual/party and such issues shall be suitably addressed by Merchant alone in line with their policies and rules.

9. **Server Slow Down/Session Timeout:** In case the Website or Payment Gateway Service Provider’s webpage, that is linked to the Website, is experiencing any server related issues like ‘slow down’ or ‘failure’ or ‘session timeout’, the User shall, before initiating the second payment, check whether his/her Bank Account has been debited or not and accordingly resort to one of the following options:

   i. In case the Bank Account appears to be debited, ensure that he/ she does not make the payment twice and immediately thereafter contact Merchant via e-mail or any other mode of contact as provided by Merchant to confirm payment.

   ii. In case the Bank Account is not debited, the User may initiate a fresh transaction to make payment.

However, the User agrees that under no circumstances the Payment Gateway Service Provider shall be held responsible for such fraudulent/duplicate transactions and hence no claims should be raised to Payment Gateway Service Provider. No communication received by the Payment Gateway Service Provider(s) in this regard shall be entertained by the Payment Gateway Service Provider.

**Limitation of Liability**

1. Merchant has made this Service available to the User as a matter of convenience. Merchant expressly disclaims any claim or liability arising out of the provision of this Service. The User agrees and acknowledges that he/ she shall be solely responsible for his/ her conduct and that Merchant reserves the right to terminate the rights to use of the Service immediately without giving any prior notice thereof.

2. Merchant and/or the Payment Gateway Service Providers shall not be liable for any inaccuracy, error or delay in, or omission of (a) any data, information or message, or (b) the transmission or delivery of any such data, information or message; or (c) any loss or damage arising from or occasioned by any such inaccuracy, error, delay or omission, non-performance or interruption in any such data, information or message. Under no circumstances shall the Merchant and/or the Payment Gateway Service Providers, its employees, directors, and its third party agents involved in processing, delivering or managing the Services, be liable for any direct, indirect, incidental, special or consequential damages, or any damages
whenever, including punitive or exemplary, arising out of or in any way connected with the provision of or any inadequacy or deficiency in the provision of the Services or resulting from unauthorized access or alteration of transmissions of data or arising from suspension or termination of the Services.

3. The Merchant and the Payment Gateway Service Provider(s) assume no liability whatsoever for any monetary or other damage suffered by the User on account of:
   (i) the delay, failure, interruption, or corruption of any data or other information transmitted in connection with use of the Payment Gateway or Services in connection thereto; and/or
   (ii) any interruption or errors in the operation of the Payment Gateway.

4. The User shall indemnify and hold harmless the Payment Gateway Service Provider(s) and Merchant and their respective officers, directors, agents, and employees, from any claim or demand, or actions arising out of or in connection with the utilization of the Services.

The User agrees that Merchant or any of its employees will not be held liable by the User for any loss or damages arising from your use of, or reliance upon the information contained on the Website, or any failure to comply with these Terms and Conditions where such failure is due to circumstance beyond Merchant’s reasonable control.

Miscellaneous Conditions:

1. Any waiver of any rights available to Merchant under these Terms and Conditions shall not mean that those rights are automatically waived.

2. The User agrees, understands and confirms that his/her personal data including without limitation details relating to debit card/credit card transmitted over the Internet may be susceptible to misuse, hacking, theft and/or fraud and that Merchant or the Payment Gateway Service Provider(s) have no control over such matters.

3. Although all reasonable care has been taken towards guarding against unauthorized use of any information transmitted by the User, Merchant does not represent or guarantee that the use of the Services provided by/through it will not result in theft and/or unauthorized use of data over the Internet.

4. The Merchant, the Payment Gateway Service Provider(s) and its affiliates and associates shall not be liable, at any time, for any failure of performance, error, omission, interruption, deletion, defect, delay in operation or transmission, computer virus, communications line failure, theft or destruction or unauthorized access to, alteration of, or use of information contained on the Website.

5. The User may be required to create his/her own User ID and Password in order to register and/or use the Services provided by Merchant on the Website. By accepting these Terms and Conditions the User agrees that his/her User ID and Password are very important pieces of information and it shall be the User’s own responsibility to keep them secure and confidential. In furtherance hereof, the User agrees to:
   i. Choose a new password, whenever required for security reasons.
   ii. Keep his/her User ID & Password strictly confidential.
   iii. Be responsible for any transactions made by User under such User ID and Password.

The User is hereby informed that Merchant will never ask the User for the User's password in an unsolicited phone call or in an unsolicited email. The User is hereby required to sign out of his/her Merchant account on the Website and close the web browser window when the transaction(s) have been completed. This is to ensure that others cannot access the User’s personal information and correspondence when the User happens to share a computer with someone else or is using a computer in a public place like a library or Internet café.

Debit/Credit Card, Bank Account Details

1. The User agrees that the debit/credit card details provided by him/her for use of the aforesaid Service(s) must be correct and accurate and that the User shall not use a debit/credit card, that is not lawfully owned by him/her or the use of which is not authorized by the lawful owner thereof. The User further agrees and undertakes to provide correct and valid debit/credit card details.
2. The User may make his/her payment (Tender Fee/Earnest Money deposit) to Merchant by using a debit/credit card or through online banking account. The User warrants, agrees and confirms that when he/she initiates a payment transaction and/or issues an online payment instruction and provides his/her card/bank details:
   i. The User is fully and lawfully entitled to use such credit/debit card, bank account for such transactions;
   ii. The User is responsible to ensure that the card/bank account details provided by him/her are accurate;
   iii. The User is authorizing debit of the nominated card/bank account for the payment of Tender Fee and Earnest Money Deposit.
   iv. The User is responsible to ensure sufficient credit is available on the nominated card/bank account at the time of making the payment to permit the payment of the dues payable or the bill(s) selected by the User inclusive of the applicable Fee.

Personal Information
3. The User agrees that, to the extent required or permitted by law, Merchant and/or the Payment Gateway Service Provider(s) may also collect, use and disclose personal information in connection with security related or law enforcement investigations or in the course of cooperating with authorities or complying with legal requirements.

4. The User agrees that any communication sent by the User vide e-mail, shall imply release of information therein/therewith to Merchant. The User agrees to be contacted via e-mail on such mails initiated by him/her.

5. In addition to the information already in the possession of Merchant and/or the Payment Gateway Service Provider(s), Merchant may have collected similar information from the User in the past. By entering the Website the User consents to the terms of Merchant’s information privacy policy and to our continued use of previously collected information. By submitting the User’s personal information to us, the User will be treated as having given his/her permission for the processing of the User’s personal data as set out herein.

6. The User acknowledges and agrees that his/her information will be managed in accordance with the laws for the time in force.

Payment Gateway Disclaimer

The machineries specified under Sr. No. (i) to (v) above shall be owned by the contractor. The scanned and digitally signed copy of ownership documents of the above machinery shall be submitted in envelop No. 1 failing which envelop No. 2 shall not be opened.

**4.4.15** The bidder not owning hot mix plant and machinery or whose own plant is not located within 60 Kms from farthest point of work site along the existing road shall submit additional security deposit at the time of bid opening. The additional security deposit should be in the form of F.D.R. / Bank Guarantee Valid for One Year drawn in the name of Executive Engineer, Public Works Division, Wardha of Rs.,000/- (Rs. Thousand only) drawn on Schedule Bank payable at Wardha. Lowest bidder shall produce location map of Hot mix plant duly signed by concerned S.D.E. alongwith the initial security deposit.

The successful bidder within 60 days from date of issue of work order shall submit Request to the Engineer In-charge for Inspection of hot mix plant conforming to M.O.R.T. & H. specifications (located within 60 Km from farthest point of work site along the existing roads) and machinery namely Paver finisher, Mechanical sprayer, Vibratory roller, Static roller etc required for the hot mix work. Along with the request for inspection he shall submit the notarized agreement with the plant owner that the plant owner is ready to supply him the hot mix material for this work.

After Inspection Engineer In-charge may accept the request as it is or instruct for some changes, if required in the plant and/or machinery which shall be carried out by the contractor at his own cost. After such changes/rectifications fresh request for inspection shall be made. Only after approval of Plant and machinery as above by the Engineer In-charge the contractor shall carry out work of hot mix from the approved plant and machinery.

Failing to adhere the schedule of submitting the Request for inspection and approval of Engineer In-charge the Additional security deposit of Rs., shall stand forfeited on 76th day or other such day as decided by the Engineer In-Charge keeping on record the reasons for doing so, from the date of work order. The decision on Engineer In-Charge in this regard shall be final and binding on the contractor.

Even though the bidders meet the above qualifying criteria, they are subjected to be disqualified if they have made misleading or false representation in the forms statement and attachments submitted as proof of qualification requirements and/or record of past performance such as abandoning the works, not properly completing the contract, inordinate delays in completion litigation history or financial failures etc.
1.5 **ENVELOPE No. 2 TENDER (FINANCIAL BID)**

(i) Upload Blank Tender Copy (In Word Format) Issued and Digitally Signed by the Department

(ii) Upload Common Set of Deviations (CSD) Issued and Digitally Signed by the Department after P.T.C (In Word Format)

(iii) Offer to be submitted Online

1.6 **SUBMISSION OF TENDER:**

Refer to Section ‘Guidelines to Bidders on the operations of Electronic Tendering System of Public Works Department’ for details.

1.7 **OPENING OF TENDERS:**

On the date, specified in the Tender Schedule, following procedure will be adopted for opening of the Tender.

(A) **ENVELOPE No. 1:** (Documents)

First of all Envelope No. 1 of the tender will be opened online to verify its contents as per requirements. If the various documents contained in this envelope do not meet the requirements of the Department, a note will be recorded accordingly by the tender opening authority and the said tenderers Envelope No. 2 will not be considered for further action and the same will be recorded.

The decision of the tender opening authority in this regard will be final and binding on the contractors.

(B) **ENVELOPE No. 2:** (Financial Bid)

a) This envelope shall be opened online immediately after opening of Envelope No. 1, only if contents of Envelope No. 1 are found to be acceptable to the Department. The tendered rates in Schedule ‘B’ or percentage above/below the estimated rates shall then be read out. (From Page No. 31) in the presence of bidders who remain present at the time of opening of Envelope No. 2.

(C) Upload digitally signed CSD and digitally signed blank tender form. If these documents are not uploaded then financial bid will not be opened and the bidder will be disqualified.

1.8 **EARNEST MONEY:**

(i) **Earnest money of minimum Rs. 7,500- shall be paid via online using NEFT/RTGS or payment gateway mode.**

After Tender opening, the EMD of the unsuccefull bidder will be returned to account provided by the bidder during the bid preparation as given in challan under Beneficiary Account Number.

(ii) Attested copy of earnest money exemption certificate will be accepted in lieu Earnest Money Deposit from the Registered Contractors of Maharashtra State only.

**Earnest Money in the form of cheques or any other form except above will not be accepted.**
(iii) The amount will be refunded to the unsuccessful tenderers on deciding about the acceptance or otherwise of the tender. In case of successful tenderer, it will be refunded on his paying initial Security Deposit and completing the tender documents in form B-1.

(iv) In case of Joint Venture, Earnest money Exemption certificate in individual capacity will not be accepted. Earnest money shall be be paid via online using NEFT/RTGS or payment gateway mode. The Security Deposit, additional security deposit etc. in the form of T.D.R. / F.D.R. issued in the name of Joint Venture Company drawn by scheduled bank having branches in Maharashtra and endorsed, in the name of Executive Engineer, Public Works Division, Wardha for the period of one year will be considered.

1.9 A SECURITY DEPOSIT:

(i) The successful tenderer whose tender is accepted will have to pay Rs. 30,000 /-
towards the Security Deposit

(ii) Rs 15,000/- is to be deposited in cash or bank guarantee of scheduled bank, F.D.R. of the scheduled bank / National Saving Certificate duly pledged in the name of the Executive Engineer Public Works Division Arvi Dist Wardha towards the initial Security Deposit, valid within the time limit prescribed in clause 1 of B-1 Form, agreement till completion of defect liabilities period failing which his earnest money will be forfeited to Government.

(iii) In addition to the above, an amount of Rs.15,000/- will be deducted from the running bills at 4 % of value of the gross bill towards balance security deposit. This is a compulsory deduction.

1.9. B Condition for payment of additional security deposit, if offer quoted by the tenderer is lesser than 15% below the cost put to tender.

The contractor shall deposit an additional security deposit along with the security deposit as per clause 1.9 within 10 days of acceptance of tender in the form of Bank guarantee, when the below percentage quoted is more than 15% of cost put to tender.

The amount of security deposit shall be worked out as per following formula.

\[
	ext{Additional Security Deposit} = \text{Rs.} \left[\frac{\% \text{ rate quoted by the contractor } - 15}{100}\right] \times 50/100 \times \text{Cost put tender}
\]

Cost put tender (i.e. Rs. 7,49,994/-)

If the contractor does not deposit this additional security deposit (if applicable) within stipulated time then his earnest money deposit will be forfeited and his tender will not be considered for acceptance.

This additional security deposit shall be extendable up to expiry of valid extensions if any and it shall be refunded along with the final bill, after satisfactory completion of work.

1.10 ISSUE OF FORMS:

Information regarding contract as well as blank tender forms can be downloaded from the eTendering website upon providing the details of the payment of cost as detailed in the N.I.T.

1.11 TIME LIMIT:

The work is to be completed within time limit as specified in the N.I.T. which shall be reckoned from the date of written order for commencing the work and shall be inclusive of monsoon period.

1.12 TENDER RATE:
No alteration in the form of tender and the schedule of tender and no additions in the scope of special stipulations will be permitted. Rates quoted for the tender shall be taken as applicable for all leads and lifts.

1.13 **TENDER UNITS:**
The tenderers should particularly note the units mentioned in the Schedule “B” on which the rates are based. No change in the units shall be allowed. In the case of difference between the rates written in figures and in words, the correct rate will be the one, which is lower of the two.

1.14 **CORRECTION:**
No corrections shall be made in the tender documents. Any corrections that are to be made shall be made by crossing the incorrect portion and writing the correct portions above with the initials of tenderer.

1.15 **TENDER’S ACCEPTANCE:**
Acceptance of tender will rest with the Superintending Engineer, P.W Circle Chandrapur who reserves the right to reject any or all tenders without assigning any reason therefor. The tenderer whose tender is accepted will have to enter into a regular B-1 agreement within 10 days of being notified to do so. In case of failure on the part of Tenderer to sign the agreement within the stipulated time, the earnest money paid by him shall stand forfeited to the Government and the offer of the tenderer shall be considered as withdrawn by him.

1.16 **CONDITIONAL TENDER:**
The tenders who do not fulfil the condition of the notification and the general rules and directions for the guidance of contractor in the agreement form or are incomplete in any respect are likely to be rejected without assigning any reason therefore.

1.17(a) The Tenderers shall be presumed to have carefully examined the drawings, conditions and specifications of the work and have fully acquainted themselves with all details of the site, the conditions of rock and its joints, pattern, river, weather characteristics, labour conditions and in general with all the necessary information and data pertaining to the work, prior to tendering for the work.

1.17(b) The data whatsoever supplied by the Department along with the tender documents are meant to serve only as guide for the tenderers while tendering and the Department accepts no responsibility whatsoever either for the accuracy of data or for their comprehensiveness.

1.17(c) The quarries for extraction of metal, murum etc. provided in the sanctioned estimate are as per survey conducted by the Department. The Contractor should however examine these quarries and see whether full quantity of materials required for execution of the work strictly as per specification are available in these source before quoting the rates. In case the materials are not available due to reasons whatsoever, the contractor will have to bring the materials from any other source with no extra cost to Government. The rates quoted, should therefore be for all
leads and lifts from wherever the materials are brought at site of work and inclusive of royalty to be paid to the Revenue Department by the Contractor.

1.18 **POWER OF ATTORNEY:**

If the tenderers are a firm or company, they should in their forwarding letter mention the names of all the partners together with the name of the person who holds the power of Attorney, authorizing him to conduct all transactions on behalf of the body, along with the tender.

1.19 The tenderer may, in the forwarding letter, mention any points are may wish to make clear but the right is reserved to reject the same or the whole of the tender if the same becomes conditional tender thereby.

1.20 The contractor or the firms tendering for the work shall inform the Department if they appoint their authorized Agent on the work.

1.21 No foreign exchange will be released by the Department for the purchase of plants and machinery for the work by the Contractor.

1.22 Any dues arising out of contract will be recovered from the contractor as arrears of Land Revenue, if not paid amicably. Moreover, recovery of Government dues from the Contractors will be affected from the payment due to the Contractor from any other Government works under execution with them.

1.23 All pages of tender documents, conditions, specifications, correction slips etc. shall be initialled by the tenderer. The tender should bear full signature of the tenderer, or his authorized power of Attorney holder in case of a firm.

1.24 The Income Tax at 2.30 % including surcharge or percentage in force from time to time or at the rate as intimated by the competent Income Tax authority shall be deducted from bill amount whether measured bill, advance payment or secured advance.

1.25 The successful tenderer will be required to produce, to the satisfaction of the specified concerned authority a valid concurrent license issued in his favour under the provisions of the Contract Labour (Regulation and Abolition) Act 1970 for starting the work. On failure to do so, the acceptance of the tender shall be liable to be withdrawn and also liable for forfeiture of the earnest money.

1.26 The tenderer shall submit the list of apprentices engaged by the Contractor under Apprentice Act.

1.27 Cess @ 1% (One percent) shall be deducted at source from every bill of the Contractor by the Executive Engineer Under “Building and Other Construction for workers Welfare Cess Act 1996

1.28 Value Added Tax Deduction 2 % from the registered contractors under the MVAT Act, 2005 and 4 % from the unregistered contractor under MVAT Act, 2005, shall be recovered from the contractor from the gross bill amount of every bill, whether for measured works or Advance Payment or Secured Advance
1.29 The tender rates are inclusive of all taxes, rates, cesses and are also inclusive of the leviable tax in respect if sale by transfer of property in goods involved in the execution of a work contract under the provision of Rules 58 of Maharashtra Value Added Tax Act-2005. For the purpose of levy of tax.

1.30 VALIDITY PERIOD:

   The offer shall remain open for acceptance for minimum period of 90 days from the Date of opening of Envelope No. 2 (Financial Bid) and thereafter until it is withdrawn by the contractor by notice in writing duly addressed to the authority opening the tender and sent by Registered Post Acknowledgment due.

कंट्राक्टरारायण सही
FORM B-1
PUBLIC WORKS DEPARTMENT

P.W.Region, Nagpur
P.W.Circle, Chandrapur
Executive Engineer Public Works Division Wardha Dist Wardha

1) All work proposed to be executed by contract shall be notified in a form of invitation to tender, pasted on a board hung up in the office of the Executive Engineer and signed by the Executive Engineer Public Works Division Wardha Dist Wardha.

The form will state the work to be carried out as well as date of submitting and opening tender the time allowed for carrying out the work, also the amount of earnest money to be deposited with the tender and the amount of security deposit to be deposited by the successful tenderer and the percentage if any to be deducted from bills. It will also states whether a quarry fees, royalties and ground floor rents will be granted. Copies of the specifications designs and drawings and estimated rates, schedule rates and any other documents required in connection with the work which will be signed by Executive Engineer for the purpose of identification shall also be open for inspection by contractors at the office of the Executive Engineer during office hours.

Where the work are proposed to be executed according to the specifications recommended by a contractor and approved by a competent authority on behalf of the Government of Maharashtra, specifications with designs and drawing shall form part of the accepted tender.

2) In the event of the tender being submitted by a firm, it must be signed separately by each partner thereof, and in the event of the absence of any partner it shall be signed on his behalf by a person holding a power of attorney authorising him to do so.

A) The contractor shall pay along with the tender the sum of Rs. 17,000/- as and by way of earnest money. Earnest money shall be paid via online using NEFT/RTGS or payment gateway mode. The said amount of earnest money shall not carry any interest whatsoever.

(i) In the event of his tender being accepted, subject to the provision of sub clause (iii) below, the said amount of earnest money shall be appropriated towards the amount deposit payable by him under condition of General Conditions of Contract.

(ii) If after submitting the tender, the contractor withdraws his offer or modifies the same or if after the acceptance of his tender the contractor fails or neglects to furnish the balance of security deposit, without prejudice to any other rights and powers of the Government hereunder, or in law, Government shall be entitled to forfeit the full amount of the earnest money deposited by him.

(iii) In the event of his tender not being accepted, the amount of earnest money deposited by the contractors shall, unless it is prior thereof forfeited under the provision of sub-clause (ii) above, be refunded to him on his passing receipt therefore.

3) Receipt for payments made on account of any work, when executed by a firm, should also be signed by all the partners. Except where the contractors are described in their tender as a firm, in which case the receipts shall be signed in the name of the firm by one of the partners, or by some other person having authority to give effectual receipts for the firm.

4) Any person who submits a tender shall fill up the usual printed form including the column of estimated quantities stating at what rate he is willing to undertake all item of the work. Tenders which propose any alteration in the work specified in the said form of invitation to tender, or in the time allowed for carrying out the work or which contain any other conditions of any sort, will be liable for rejection. No single tender shall include more than...
one work, but contractors who wish to tender for two or more works shall submit a separate tender for each. Tenderers shall have the name and the number of work to which they refer written outside the envelope.

5) The **Executive Engineer, Public Works Division, Wardha** or his duly authorized assistant will open tenders in the presence of any intending contractors who may be present at the time and will enter the amount of the several tenders in a comparative statement in a suitable form. In the event of a tender being accepted, the contractor shall thereupon, for the purpose of identification, sign copies of the specifications and other documents mentioned in Rule 1. In the event of a tender being rejected, the Divisional Officer shall refund the amount of earnest money deposited by the contractor online.

6) The Officer competent to dispose of the tender shall have the right to reject any or all of the tenders.

7) No receipt for any payment alleged to have been made by a contractor in regard to any matter relating to this tender or the contract shall be valid and binding on Government unless it is signed by the Executive Engineer.

8) The memorandum of the work to be tendered for and the schedule of materials to be supplied by the Public Works Department and their rates shall be filled in and completed by the office of the Executive Engineer before the tender form is issued. If a form issued to an intending tenderer has not been so filled in and completed he shall request the said office to have done this before the completes and delivers his tender.

9) All work shall be measured net by standard measure and according to the rules and customs of the Public Works Department without reference to any local custom.

10) Under no circumstance shall any contractor be entitled to claim enhanced rates for any item in this contract.

11) All correction and additions or pasted slips should be initialed.

12) The measurement of work will be taken according to the usual method in the Public Work Department and no proposal to adopt alternative methods will be accepted. The Executive Engineer’s decision as to what is “the usual method in use in Public Work Department will be final”.

   (i) The contractor shall give a list of machinery in their possession and which they propose to use on the work.

   (ii) The contractor will have to construct shed for storing materials procured by him at his own cost at the work site having double locking arrangement. The materials will be taken for use in the presence of the Departmental Person. No materials will be allowed to be removed from site of the work.

13) The tender will be liable to be rejected, if while submitting it, the tenderer or in the case of a firm each partner thereof does not sign or the signature/signatures is/are not attested by a witness on page 28 of the tender in the space provided for the purpose.

14) **Use of Government Machinery**

   (a) If Government Machinery is available and the contractor desires to hire it for Work on the project it may be hired to him subject to the rules and hire charges that may be laid down by the Government from time to time during the currency of tender.

   (b) No security will be taken from the contractor, so long as the machinery is worked by the departmental staff and under the entire control of department and is not handed over to the contractor at all for operation by his crew and staff and the charges for the use of machinery are levied on hourly basis and as per prevailing schedule of rate for hire charges.

   (c) Machinery should be worked only where the departmental staff is confidant to use it safely & never in difficult situation and dangerous spot.

   (d) The recovery of plant hire charges will be immediately made through the next Running Accounts bills.

15) The tendering contractors shall furnish a declaration along with the tender showing all works for he has already entered into contract, and the value of work that remains to be
executed in each case on the date of submitting tender.

16) In view of the difficult position regarding the availability of foreign exchange, no foreign exchange would be released by the Department for the purchase of plant and machinery required for the execution of the work contracted for.

17) The contractor will have to construct shed for storing controlled and valuable materials issued to him under schedule 'A' of the agreement. The materials will then be taken for use in the presence of the departmental person. No material will be allowed to be removed from the site of works.

18) The tendering contractor should furnish a detailed statement of works in hand, showing the cost of works in hand, the works completed against each with certificate from head of the office concerned.

19) In case of joint venture, the copy of registered partnership deed shall be produced at the time of purchasing of tender form and also in envelope No I.

20) Two or more contractors of any class may combine and tender for a work costing to the amounts up-to which each individual contractor or the higher of two limits if they are of different categories are empowered to tender as per the original registration provided.

(i) The combination is of the contractor as a whole and not individual partners and
(ii) They draw a registered partnership deed.
(iii) They should register in the name of joint Venture on the http://pwd.maharashtra.etenders.in
(iv) For empanelment on the http://pwd.maharashtra.etenders.in they should submit noterised joint Venture papers to Authority /Engineers In charge
(v) The Empanelment on http://pwd.maharashtra.etenders.in shall be only for This work.

21) Whenever the advantage of such combination of two or more contractors is to be taken for quoting for a work, the registered partnership deed should be irrevocable till the completion of work for which they have combined and till all the liabilities there of are liquidated and the share of the contractor of higher category should not be less than 50%.

Further the percentage share of the contractor of the lower category in such a partnership/ combination should not be more than his limit of eligibility to quote for works divided by the estimated cost of work put to tender (i.e. when such a percentage is applied to the cost of the work, his share of cost not exceed his own eligibility limit of tendering for works.)

22) The lead partners shall meet not less than 50 percent of all qualifying criteria like annual turnover, single work, quantities of items and Bid Capacity above. The joint venture must collectively satisfy the criteria of para annual turnover, single work, quantities of items and Bid capacity above

The experience of the other joint partners shall be considered if it is not less than 30 percent of the qualifying criteria like annual turnover, single work, quantities of items and Bid capacity above

23) If joint venture firm is found lowest at the time of opening of bids, the tenderer shall register the joint venture with the Registrar of Firm and submit the same to the Engineer-in-charge within 45 days from the date of opening of tender, failing which his bid shall be considered non responsive and the Earnest Money shall be forfeited.
TENDER FOR WORKS

I / We hereby tender for the execution for the Governor of Maharashtra (here in before and here in after referred to as Government) of the work specified in the under written memorandum within the time specified in such memorandum at*

The above tender is hereby accepted by me on behalf of the Governor of Maharashtra.

Executive Engineer
Public Works Division Wardha Dist Wardha

Dated the _______________day of __________ 2015
CONDITIONS OF CONTRACT

Clause 1: The person / persons whose tender may be accepted (herein after called the contractor, which expression shall unless excluded by or repugnant to the context in clude his, heirs executors, administrators, contractor and assigns) shall (A) within 10 days (which may be extended by the Superintending Engineer concerned upto 15 days if the Superintending Engineer thinks fit to do so) of the receipt by him of the notification of the acceptance of his tender deposit with the Executive Engineer in cash or Govt. securities endorsed to the Executive Engineer (if deposited for more than 12 months) of sum sufficient which will make up the full security deposit specified in tender or (B) permit Government at the time of making any payment to him for work done under the contract to deduct such as will amount to 4 (Four) percent of all moneys so payable, such deduction to be held by Government by way of security deposit, provided always, that, in the event of the contractor depositing a lump sum by way of security deposit as contemplated at (A) above, then and in such case, a the sum so deposited shall not amount to 4 (Four) percent, of the total estimated cost of the work, it shall be lawful for Government at the time of making any payment to the contractor for work done under the contract, to make up the payment to the contractor for work done under the contract to make up the full amount of 4 (Four) percent, by deducting a sufficient sum from every such payment as last aforesaid, until the full amount of the security deposit is made up.

All compensation or other sum of money payable by the contractor to government under the terms of his contract may be deducted from or paid by the sale of sufficient part of his security deposit or from the interest arising there from or from any sums which may be due or may become due by Government to the contractor under any other contract or transaction of any nature on any account whatsoever, and in the event of his security deposit being reduced by reason of any such deduction or sale as aforesaid the contractor shall within ten days there after make good in cash or Government securities endorsed as aforesaid, any sums or sums which may have been deducted from or raised by sale of his security deposits or may part thereof. The security deposit referred to, when paid in cash may, at the cost of the depositor, be converted into interest bearing securities provided that the depositor has expressly desired this in writing.
If the amount of the Security Deposit to be paid in lump sum within the period specified at (A) above is not paid, the tender / Contract already accepted shall be considered as cancelled and legal step will be taken against the contractor for recovery of the amounts. The amount of the Security Deposit lodged by a contractor shall be refunded along with the payment of the final bill, if the date up to which the contractor has agreed to maintain the work in good order is over. If such date is not over, only 50% amount of security deposit shall be refunded along with the payment of the final bill. The amount of security deposit retained by the Government shall be released after expiry of period up to which the contractor has agreed to maintain the work in good order is over. In the event of the contractor failing or neglecting to complete rectification work within the period up to which the contractor has agreed to maintain the work in good order, then subject to provisions of clause 17 and 20 here of the amount of security deposit retained by Government shall be adjusted towards the excess cost incurred by the department on rectification work *+ This will be the same percentage as that in the tender at (e).

**Compensation for delay**

Clause 2: The time allowed for carrying out the work as entered in the tender shall be strictly observed by the contractor and shall be reckoned from the date on which the order to commence work is given to the contractor. The work shall throughout the stipulated period of the contract be proceeded with, all due diligence (time being deemed to be the essence of the contract on part of the contractor) and the contractor shall pay as compensation an amount equal to one percent, or such smaller amount as the Superintending Engineer (whose decision in writing shall be final) may decide, of the amount of the estimated cost of the whole work as shown in the tender for every day that work remains un-commenced, or unfinished after the proper dates. And further to ensure good progress during the execution of the works, the contractor shall be bound in all cases, in which the time allowed for any work exceeds one month to complete.

+ 1/4 of the work in 1/4 of the time
+ 1/2 of the work in 1/2 of the time
+ 3/5 of the work in 2/3 of the time

**Full work** 02 (Two) Month

In the event of the contractor failing to comply with these conditions he shall be liable to pay as compensation an amount equal to one percent, or such smaller amounts as the Superintending Engineer (whose decision in writing shall be final) may decide of the said estimated cost of the whole work for every day that the due quantity of work remains incomplete. Provided always that the total amount of compensation to be paid under provision of this clause shall not exceed 10 percent of the estimated cost of the work shown in the tender. Superintending Engineer should be the final authority in this respect irrespective of the fact that the tender is accepted by Chief Engineer P.W.Region Nagpur.

**Action when whole of Security Deposit is forfeited.**

Clause 3: In any case in which under any clause or clauses of this contracts the contractor shall have rendered himself liable to pay compensation amounting to the whole of his security deposit (whether paid in one sum or deducted by installments) or in the case of abandonment of the work owing to serious illness or death of the contractor or any other cause, the Executive Engineer on behalf of the Governor of Maharashtra shall have power to adopt any of the following courses as he may deem best suited to the interest of Government.
a) To rescind the contract (of which rescission notice in writing to the contractor under the hand of the Executive Engineer shall be conclusive evidence) and in that case the security deposit of the Contractor shall stand forfeited and be absolutely at the disposal of Government.

b) To carry out of work or any part of the work departmentally debiting the contractor with the cost of the work, expenditure incurred on tools and plant, and charges on additional supervisory staff including the cost of work charged establishment employed for getting unexecuted part of the work completed and crediting him with the value of the work done departmentally in all respects in the same manner and at the same rates as if it had been carried out by the contractor under the terms of the contract. The certificate of the Executive Engineer as to the cost of the work and other allied expenses so included and the value of the work so done departmentally shall be final and conclusive against the contractor.

c) To order that the work of the contractor be measured up and to take such part thereof as shall be unexecuted out of his hands and to give it to another contractor to complete, in which case all expenses incurred on advertisement for fixing a new contracting agency, additional supervisory staff including the cost of work charged establishment and cost of the work executed by the new contract agency will be debited to contractor and the value of the work done or executed through the new contractor shall be credited to the contractor in all respects and in the same manner and at the same rates as if it had been carried out by the contractor under the terms of his contract. This certificate of the Executive Engineer as to all the cost of the work and other expenses incurred as aforesaid for or in getting the unexecuted work done by the new contractor and as to the value of the work done by the new contractor and as to the value of the work so done shall be final and conclusive against contractor.

In case the contract shall be rescinded under clause (a) above, the contractor shall not be entitled to recover or be paid any sum for any work thereto actually performed by him under this contract unless and until the Executive Engineer shall have certified in writing the performance of such work and the amount payable to him in respect thereof he shall only be entitled to be paid the amount so certified. In the event of either of the courses referred to in clause (b) or (c) being adopted and the cost of the work executed departmentally or through a new contractor and other allied expenses exceeding the value of such work credited to the contractor, the amount of excess value shall be deducted from any money due to the contractor by the Govt. under the contract or otherwise, howsoever or from his security deposit or the sale proceeds thereof provided howsoever, that the contractor shall have no claim against government even if certified value of the work done departmentally or through a new contract except the certified cost of such work and allied expenses provided always that whichever of the three courses mentioned in clause (a) (b) or (c) is adopted by the Executive Engineer, the contractor shall have no claim to compensation for any loss sustained by reason of him having no claim to compensation for any materials, or entered into engagement or made any advance on account of or with a view of the execution of the work or the performance of contract.

Clause 4: If the progress of any particular portion of the work is unsatisfactory the Executive Engineer shall not with standing that the general progress of the work is satisfactory in accordance with clause 2 be entitled to take action under clause 3 (b) after giving the contractor 10 days notice in writing and the contractor will have no claim for compensation for any loss sustained by him owing to such action.
Clause 5: In any case in which any of the powers conferred upon the Executive Engineer by clause 3 and 4 hereof shall have become exercisable and the same shall not have been exercised, the non-exercise thereof shall not constitute a waiver of any of the conditions hereof and such powers shall not-with standing be exercisable in any future case of default by the contractor for which by under any clause or clauses hereof he is declared liable to pay compensation amounting to the whole of his security deposit and the liability of the contractor for past and future compensation shall remain unaffected. In the event of the Executive Engineer taking action under sub-clause (a) or (c) of clause (3) he may, if he so desires, take possession of all or any tool plant, materials and stores in or upon the works or the site thereof or belonging to the contractor or procured by him and intended to be used for the execution of the works or the site thereof or belonging to the contractor, or procured by him and intended to be used for the execution of the work or any part thereof, paying or allowing, for the same in account at the contract rates, or in the case of contract rates not being applicable at current market rates, to be certified by the Executive Engineer whose certificate there of shall be final. In the alternative the Executive Engineer may, by notice in writing to the contractor or to his clerk of the works, foreman or other authorised agent require him to remove such tools, plant materials or stores from the premises within a time to be specified in such notice and in the event of contractor failing to comply with any such requisition the Executive Engineer may remove them at the contractor’s expenses or sale them by auction or private sale, at risk and account of the contractor in all such removal and the amount of the proceeds and expenses of any such sale be final and conclusive against the contractor.

Clause 6: If the contractor desires an extension of the time for completion of the work on the ground of his having unavoidable hindering in it execution or on the other ground, he shall apply in writing to the Executive Engineer before the expiration of the period stipulated in the tender or before the expiration of 30 days from the date to which he was hindered as aforesaid or on which the cause for asking ever extension occurred, which ever is earlier and the Executive Engineer may, if in his opinion there are reasonable ground for granting an extension, grant such extension as he thinks necessary or proper. The decision of the Executive Engineer in this matter shall be final.

Clause 6 A : In the case of delay in handing over the land required for the work due to unforeseen cause, the contractor shall not be entitled for any compensation what so ever from the Government on the ground that the machinery or the labour was idle for certain period. Contractor may, however apply for extension of time limit which may be granted on the merit of the case.

Clause 7 : On completion of the work the contractor shall be finished with a certificate by the Executive Engineer (Hereinafter called the Engineer-in-charge) in such completion but no certificate shall be given nor shall the work be considered to be complete until the contractor shall have removed from the premises on which the work shall have been executed, all scaffolding, surplus materials and rubbish and shall have cleaned of the dirt from all wood work, doors, floors or other parts of any building in or upon which the work has been executed or on which he may have had possession for the purpose of executing the work or until the work shall have been measured by the Engineer-in-charge or where the measurements have been taken by his subordinates until they have received the approval of the Engineer -in charge the said measurement being binding and conclusive against
the contractor. If the contractor fails to comply with the requirement of the clause as to the removal of scaffolding, surplus material and rubbish and cleaning of dirt on or before the date fixed for the completion of the work. The Executive-in-charge may at the expense of the contractor, remove such scaffolding, surplus materials and rubbish and dispose off the same as he think fit and clean of such dirt as aforesaid and the contractor shall forthwith pay the amount of all expenses so incurred but shall have no claim in respect of any such scaffolding or surplus materials as aforesaid except for any sum actually realized by the sale thereof.

**Clause 8:** No payment shall be made for any work estimated to cost less than Rs. One thousand till after the whole of the said work shall have been completed and a certificate of completion given. But in the case of the works estimated to cost more than Rs. One thousand, the contractor shall not submitting a monthly bill there off be entitled to receive payment proportionate to the part of the work then approved and passed by the Engineer-in-charge whose certificate of such approval and passing of the sum payable shall final and conclusive against the contractor. All such intermediate payment shall be regarded as payment by way of advance against the final payment only and not preclude the Engineer-in-charge from requiring any bad, unsound, imperfect or unskillful work to be removed and taken away and reconstructed or rejected, nor shall any such payment be considered as an admission of the due performance of the contractor or any part thereof, in any respect of the occurring of any claim, nor shall it conclude, determine or affect in any way the powers of the Engineer-in-charge as to final settlement and adjustment of the accounts or otherwise or in any other way vary or affect the contract. The final bill shall be submitted by the Contractor within one months of the date fixed for the completion of the work otherwise the Engineer-in-charge’s certificate of the measurement and of the total amount payable for the work shall be final and binding on all parties.

**Clause 9:** The rates for several items of work estimated to cost more than Rs. One thousand agreed to within shall be valid only when the item concerned is accepted as having been completed fully in accordance with the sanctioned specifications. In case where the items of work are not accepted as so completed the Engineer-in-charge may make payment on account of such items at such reduced rates as he may consider reasonable in preparation of final or on account bills.

**Clause 10:** A bill shall be submitted by the contractor each month on or before the date fixed by the Engineer-in-charge for all work executed submitted in the previous month, and the Engineer-in-charge shall take or cause to be taken the requisite measurement for the purpose of having the same verified and the claim so far as it is admissible shall be adjusted, if possible within ten days from the presentation of the bill. If the contractor does not submit the bill within time fixed as aforesaid, the Engineer-in-charge may depute a subordinate to measure up the said work in the presence of the contractor or his duly authorised agent whose counter signature to the measurement list shall be sufficient warrant and the Engineer-in-charge may prepare a bill from such list which shall be binding on the contractor in all respects.
| Clause 11: | The contractor shall submit all bills on the printed forms to be had on application at the office of the Engineer-in-charge. The charges to be made in the bills shall always be entered at the rates specified in the tender or in the case of any extra work ordered in pursuance of these conditions and not mentioned or provided for in the tender, at the rate hereinafter provided for such work. |
| Stores supplied by Government | Clause 12: If the specification or estimate of the work provides for the use of any special description of materials to be supplied from the P.W.D. store or if it is required that the contractor shall use certain stores to be provided by the Engineer-in-charge (such material and stores, and the prices to be charged therefore as hereinafter mentioned being so far as practicable for the convenience of the contractor but not so in any way to control the meaning or effect of this construction specified in the schedule or memorandum hereto annexed) the contractor shall be supplied with such materials and stores as may be required from time to time to be used by him for the purpose of the construction only, and values of the full quantity of materials and stores as supplied shall be set off or reduced from any sums then due, or hereafter to become due to the contractor under the contract or otherwise or from the security deposits, or the proceeds of sale thereof, if the deposit is held in Government, and shall on no account be removed from the site of the work and shall at all times be open to inspection by the Engineer-in-charge. Any such material unused and in good condition at the time of completion or determination of the contract shall be returned to the Public Works Department stores, if the Engineer-in-charge so requires by a notice in writing given under his hand, but the contractor shall not be entitled to return any such materials except with such consent and he shall have no claim for compensation on account of any such material supplied to him as aforesaid but remaining unused by him or for any wastage into damage thereto. |
| Store Material | Clause 12 A: All stores of contractor material such as cement, steel, Bitumen, etc. Supplied by the contractor at his own cost should be kept by the contractor under lock and key and will be accessible for inspection by the Executive Engineer or his agent at all times. |
| Work to be executed in accordance with specification, drawing, orders etc. | Clause 13: The contractor shall execute the whole and every part of the work like manner and both as regards materials and every other respect in strict accordance with specifications. The contractor shall also confirm exactly fully and faithfully to the designs, drawings and instructions in writing relating to the work signed by the Engineer-in-charge and lodged in his office and to which the contractor shall be entitled to have access for the purpose of inspection at such office or at the site of work during office hours. The contractor will be entitled to receive three sets of contracts drawings and working drawings as well as one certified copy of the accepted tender along with the work order free of cost. Further copies of the contract drawings and working drawings, if required by him, shall be supplied at the rate of Rs. 500/- per set of contact drawing and Rs. 150/- per working drawing except where otherwise specified. |
| Alteration in Specifications and designs not to invalidate contract. | Clause 14: The Engineer-in-charge shall have power to make any alterations in, or additions to, the original specifications, drawings, designs and instructions, that may appear to him to be necessary or advisable during the progress of the work and the contractor shall be bound to carry out the work in accordance with any instructions in this connection which may be given to him in writing signed by the Engineer-in-charge and such alteration shall not invalidate the contract, and any additional work which the contractor may be directed to do in the manner above specified as a part of the work shall be carried out by the contractor in the same conditions in all respects on which he agreed to the main work and at the same rates as per specified in the tender for the main work. And if the additional or altered work, includes any class of work for which no rate is
specified in this contract, then such class of work shall be carried out at the rates entered in Schedule of Rates of the division or at the mutually agreed upon between the Engineer-in-charge and the contractor, whichever are lower. If the additional or altered work, for which no rate is entered in the schedule of rates of the division, is ordered to be carried out before the rates are agreed upon, then the contractor shall within seven days of the date of receipt by him of order to carry out work inform the Engineer-in-charge of the rate which it is his intention to charge for such class of work, and if the Engineer-in-charge does not agree to this rate he shall by notice in writing be at liberty to cancel his order to carry out such class of work and arrange to carry it out in such manner as he may consider advisable, provided always that if the contractor shall commence work or incurs any expenditure in regard thereto before the rate shall have been determined as lastly herein-before mentioned then in such case he shall only be entitled to be paid in respect if the work carried out or expenditure incurred by him prior to the date of the determination of the rate as aforesaid according to such rate or rates as shall be fixed by the Engineer-in-charge. In the event of a dispute the decision of the Superintending Engineer of the Circle will be final.

Where however, the work is to be executed according to the designs, drawings, and specification recommended by the contractor and accepted by the competent authority the alterations above referred to shall be within the scope of such designs, drawing and specifications to the tender.

The time limit for the completion of work shall be extended in the proportion that the increase in its cost occasioned by alterations or additions bears to the cost of the original contact work and the certificate of the Engineer-in-charge as to such proportion shall be conclusive.

Clause 15 : (1) If at any time after the execution of the contract documents, the Engineer in charge shall for any reason whatsoever (other than default on the part of the contractor and for which Government is entitled to rescind the contract) desire that the whole or any part of the work specified in the tender should be suspended for any period or that the whole or part of the work should not be carried out at all he shall give to the contractor a notice in writing of such desire and upon the receipt of such notice the contractor shall forthwith suspend or stop the work wholly or in part as required, after having due regard to the appropriate state at which the work should be stopped or suspended so as not to cause any damage or injury to the work already done or endanger the safety thereof provided the decision of the Engineer in charge as to the stage at which the work or any part or it could be or could have been safely stopped or suspended shall be final and conclusive against the contractor. The contractor shall have no claim to any payment or compensation what-so-ever by reason of or in pursuance of any notice as aforesaid on account of any suspension, stoppage or curtailment except to the extent specified here-in-after.
(2) Where the total suspension of the work ordered as aforesaid continued for a continuous period exceeding 90 days the contractor shall be at liberty to withdraw from the contractual obligations under the contract so far as it pertains to the unexecuted part of the work by giving a 10 days prior notice in writing to the Engineer in charge, within 30 days of the expiry of the said period of 90 days of such Intention and requiring the Engineer in charge to record the final measurements of the work already done and to pay the final bill. Upon given such notice, the contractor shall be deemed to have been discharged from his obligation to complete the remaining unexecuted work under this contract. On receipt of such notice the Engineer shall proceed to complete the measurement and make such payment as may be finally due to the contractor within a period of 90 days from the receipt of such notice in respect of the work already done by the contractor. Such payment shall not in any manner prejudice the right of the contractor to any further compensation under the remaining provision of this clause.

(3) Where the Engineer in charge requires the contractor to suspend the work for a period in excess of 30 days at anytime or 60 days in the aggregate, the contractor shall be entitled to apply to the Engineer in charge within 30 days of the resumption of the work after such suspension for payment of compensation to the extent of pecuniary loss suffered by him in respect of working machinery rendered idle on the site or on account of his having, had to pay the salary or wages of labour engaged by him during the said period of suspension. Provided always that, the contractor shall not be entitled to any claim in respect of any such working machinery, salary or wages for the first 30 days whether consecutive or in the aggregate of such suspension or in respect of any suspension what-so-ever occasioned by unsatisfactory work or any other default on his part. The decision of the Engineer in charge in this regard shall be final and conclusive against the contractor.

(4) **In the event of**

(i) Any total stoppage of work on notice from the Engineer in charge under sub-clause (1).

(ii) Withdrawal by the contractor from the contractual obligation to complete the remaining unexecuted work under sub-clause (2) on account of continued suspension of work for a period exceeding 90 days.

(iii) Curtailment in the quantity of any item or items originally tendered on account of any alteration, omission or substitution in the specifications, drawings, designs or instructions under clause 14(1) where such curtailment exceeds 25% in quantity and the value of the quantity curtailed beyond 25% at the rate for the items specified in the tender is more than Rs. Five Thousand (Rs.5000/-)

It shall be open to the contractor within 90 days from the service of (i) the notice of stoppage of work or (ii) the notice of withdrawal from the contractual obligation under the contract on account of the continued suspension of the work (iii) notice under clause 14(1) resulting such curtailment or produce to the Engineer in charge satisfactory documentary evidence, that he had purchased or agreed to purchase material for use in the contracted work, before receipt by him of the notice of stoppage, suspension or curtailment and require the Government to take over on payment such material at the rates determined by the Engineer, provided however, such rates shall in no case exceed the rates at which the same were acquired by the contractor. The Government shall thereafter take over the material so offered, provided the quantities offered are not in excess of the requirement of the unexecuted work as specified in the accepted tender and are of quality and specification approved by the Engineer.

</table>
Clause 20: If during the period of 24 (Twenty Four Month) months from the date of completion as certified by the Engineer-in-charge pursuant to the clause 7 of the contract or 26 (Twenty Six Month) months after commissioning of the work whichever is earlier in the opinion of the Engineer-In-charge, the said work is defective in any manner whatsoever, the contractor shall forthwith on receipt of the notice in that behalf from the Engineer-In-charge, duly commence execution and completely carry out at his cost in every respect all the work that may be necessary for rectifying and setting right the defects specified therein including dismantling and reconstruction of unsafe portions strictly in accordance with and in the manner prescribed and under the supervision of the Engineer-In-charge. In the event of the contractor failing and neglecting to commence execution of the said rectification work within the period prescribed therefore in the said notice the Engineer-In-charge may get the same executed and carried out departmentally or by other agency at the risk on account and at the cost of the contractor. The contractor shall forthwith on demand pay to the government the amount of such costs, charges and expenses sustained or incurred by the government of which the certificate of the Engineer-In-charge shall be final and binding on the contractor. Such costs, charges and expense shall be deemed to be arrears of land revenue and in the event of contractor failing or neglecting to pay the same on demand as aforesaid without prejudice to any other rights and remedies of the government, the same may be recovered from the contractor as arrears of land revenue. The government shall also be entitled to deduct the same from any amount which may then be payable or which may thereafter becomes payable by government to the contractor either-in-respect of the said work or any other work whatsoever, or from the amount of the security deposit retained by government.

Clause 21: The contractor shall supply at his own cost all materials (except such special material if any) as may be supplied from the Public Works Department Stores, in accordance with the contract, plant, tolls, appliances, implements, ladders, cordage, tackle, scaffolding and any temporary works which may be required for the proper execution of the work, in the original, altered or substituted form, whether included in the specification or other documents forming part of the contract or referred to in these conditions or not and which may be necessary for the purpose of satisfying or complying with requirements of the Engineer-in-charge as to any matter on which under these Conditions he is entitled to be satisfied, or which be entitled to require together with carriage therefor, to and from the work. The contractor shall also supply without charge the requisite number of persons with the means and materials necessary for the purpose of setting out works and counting, weighing and assisting in the measurement or examination at any time and from time to time of the work or materials. Failing this the same may be provided by the Engineer-in-charge at the expense of the contractor and the expenses may be deducted from any money due to the contractor under the contract or from his security deposit or the proceeds of sale thereof or of sufficient portion thereof. Clause 59(1): QUALITY ASSURANCE AND MAINTENANCE.(Annexure to the P.W.D circular No 1091-/CR -60/ Bldg -2 dt 14 th October 1991 regarding incorporation additional condition for quality assurance and Maintaince Manual)

To ensure the specific quality of work which will also include necessary surveys, temporary works, etc., the contractor shall prepare a quality assurance plan and get the same approved from the Engineer-in-charge within one month from the date of work order. For this, the contractor shall submit an organisation chart of his technical personnel to be deployed on the work along with their qualification, job description defining the function of reporting, supervising, inspecting and approving. The contractor shall also submit a list of tools, equipment and the machinery and instrumentation, which he proposes to use for the construction and for testing in the field and/or in the laboratory and monitoring. The contractor shall modify supplement the organisation chart and the list of Machinery/ equipment etc. as per the direction of the Superintending Engineer and shall deploy the personnel and equipment on the field as per the approved chart and the list respectively.

The contractor shall submit written method statements dealing his exact proposal of execution of the work in accordance with the specification. He will have to get these approved from the Engineer-in-charge. The quality of the work shall be property documented through certificates, records, check lists and Log book of results etc. such records shall be complied from the beginning of the work and be continuously updated subsequently and this will be the responsibility of the contractor. The form should be got approved from the Engineer in charge.

Clause 59 (2): Where the work is to be on lum-sum basis on contractor's design the contractor shall also submit a maintenance manual giving procedure for maintenance, with the periodically of maintenance works including inspections to be used, means of accessibility for all pats of the structure. He shall also include in the manual, the specification, for maintenance works that would be appropriate for his design and technique of construction. This manual shall be submitting within the contract period.
Clause 60: It is obligatory on the part of agency to procure R.C.C. pipe (ISI marked) required for the work from the M.S.S.I.D.C. only. The proof of such procurement like bill of M.S.S.I.D.C. certification of the Divisional Manager M.S.S.I.D.C. to that effect will have to be enclosed along with the bill pertaining to the work concerned. The payment towards the procurement of R.C.C. pipes and also items, in which the use of R.C.C. pipes is contemplated, would be released only after fulfillment of the conditions, laid down as above.

Note: In case provisions of this form B-1 conflicts with those in detailed cyclostyled provisions and conditions attached to this tender. The detailed cyclostyled provision and conditions would prevail over those in this form ‘B-1’
GENERAL CONDITIONS OF CONTRACT

1.AUTORITY OF ENGINEER - IN - CHARGE.

Save in so far as it is legally or physically impossible, the contractor shall execute complete and maintain the works in strict accordance with the contract under the directions and to the entire satisfaction of the Engineer - in - charge and shall comply with and adhere strictly to the Engineer - in - charge instructions and directions on any matter (Whether mentioned in the contract or not) pertaining to this work.

The Engineer - in - charge shall decide all questions which may arise as to quality and acceptability of materials furnished and work executed, manner of executions, rate of progress of work, interpretations of the plans and specifications and acceptability of fulfillment of the contract on the part of contractor. He shall determine the amount and quality of work performed and materials furnished and his decision and measurements shall be final. In all such matters and in any technical questions which may arise touching the contract, his decision shall be binding on the contractor. The engineer in charge shall have power to enforce such decisions and orders if the contractor fails to carry out them promptly. If the contractor fails to execute the work order by the engineer in charge, the engineer in charge may give notice to the contractor specifying a reasonable period therein and on the expiry of that period proceed to execute such work as may be deemed necessary and recover the cost thereof from the contractor.

1.1 AUTHORITY OF ENGINEER-IN-CHARGE REPRESENTATIVE.

The duties of the representative of the engineer in charge are to watch and supervise the work and to test and examine any material to be used or workmanship employed in connection with the works.

1.2 The Engineer in charge may from time to time in writing delegate to his representative any of the powers and authorities vested in the Engineer in charge and shall furnish to the contractor a copy of all such delegations of powers and authorities. Any written instructions of the approval given by the representative of the engineer in charge to the contractor within the terms of such delegations (but not otherwise) shall bind the contractor and department as though it had been given by the Engineer in charge provided always as follows.

(a) Failure of the representative of the engineer in charge to disapprove any work or materials shall not prejudice the power of the engineer in charge. Thereafter to disapprove such work or materials and to order pulling down, removal or breaking up thereof.

(b) If the contractor is dissatisfied with any decision of the representative of the engineer in charge he shall be entitled to refer the matter to the engineer in charge who shall thereupon confirm reverse or vary such decisions.

2. OTHER CONDITIONS FOR SUBMISSION OF TENDER :

2.1 The contractor shall be deemed to have carefully examined the work and site conditions including labours, the general and he special conditions, the specification schedule and drawing and shall be deemed to have visited the site of the work and to have fully informed himself regarding the local conditions and carried out his own investigations to arrive at the rates
quoted in the tender. In this regards he will be given necessary information to the best of the
knowledge of Department but without any guarantee about it.
2.2 It is presumed that the contractor has carefully gone through the works specifications.
P.W.D. Hand Book and the Schedule of rates of the division and studied the site conditions
before arriving at the rates quoted by him.
3. **TREASURE TROVE:**
In the event of discovery by the contractor or his employees during the progress of the works of
the any treasure, fossils, minerals or any other article of value or interest, the contractor shall
give immediate intimation thereof to the Engineer. And forth with mark over to the Engineer his
representative such treasure or things, which shall be the property of Government.

3 –A **LAYOUT OF WORK**
Layout of the work will be done by the contractor in consultation with the Executive
Engineer, of the department or his representative . Some permanent marks should
however be established to indicate the demarcation of the structures or any component
thereof made to this permanent marks in measurement books and drawing, signed by
the contractor and the departmental officer, responsibility regarding layout will be joint.

4. **AGENT AND WORK ORDER BOOK:**
4.1 The contractor shall himself engage an authorised all time agent on the work capable of
managing and guiding the work and understanding the specifications and contract conditions. A
qualified and experienced Engineer shall be provided by the contractor as his agent for
technical matters. Site engineer can also be designated as an agent of the contractor. Agent
will take orders as will be given by the Engineer in charge or his representative and shall be
responsible for carrying them out. This agent shall not be changed without prior intimation of
the Engineer in charge and his representative on the work site. The Engineer-in-charge have
the unquestionable right to ask for changes in the quality and strength of supervisory staff of
contractor and to order removal from work of any of such staff. The contractor shall comply with
such order and effect replacements of the satisfaction of the Engineer-in-charge.
4.2 A work order book shall be maintained on site and it shall be the property of
Government and the contractor shall promptly sign orders given therein by the Executive
Engineer in charge or his representative and his superior officer, and comply with them. The
compliance shall be reported by contractor to the Engineer in charge in good time so that it can
be checked, the blank work order book, with machine numbered pages will be provided by the
Department free of charge for this purpose. The contractor will be allowed to copy out the
instruction therein from time to time.

5. **INITIAL MEASUREMENT OF RECORD:**
Where for proper measurements of the work it is necessary to have an initial set of levels or
other measurements taken the same as recorded in the authorised field book or M.B. of
Government by the Engineer in charge or his authorised representative will be signed by the
contractor who will be entitled to have a true copy of same made at his cost. Any failure on the
part of the contractor who will be entitled to have a true copy of same made at his cost. Any
failure on the part of the contractor to get such level etc. recorded before starting the work will
render him liable to accept the decision of the Engineer in charge as to basis of taking
measurements and will be binding on contractor Likewise the contractor will not carry out any
work which will render its subsequent measurement difficult or impossible without first getting
the same jointly measured and recorded by himself and the authorised representative of the
Engineer in charge. The record of such measurement maintained by Government shall be
signed by the contractor and he will be entitled to have a true copy of the same made at his
cost.
6. **CUSTODY OF WORK:**
All work and materials before being finally taken over by Government will be the entire liability of the contractor for guarding, maintaining and making good any damages of any magnitude. It is however to be understood that before taking over such work, Government will not put it to its regular use as distinct from casual or incidental use except as specially mentioned elsewhere in this contract or as mutually agreed to.

(v) **CO-ORDINATION:**
When several agencies for different sub works of the project are to work simultaneously on the project site, there must be full co-ordination between the contractors to ensure timely completion of the whole project smoothly. The scheduled dates for completion specified in each contract shall, therefore, be strictly adhered to. Each contractor may make his independent arrangements for water, power, housing etc. if they so desire. On the other hand, the Contractors are at liberty to come to mutual agreement on his behalf and make joint agreement with the approval of the Engineer in charge. No contractor shall take or cause to take any steps or action that may cause destruction, discontent or disturbance to work, labour or arrangements etc. of other contractors in the project localities. Any action by any Contractors which the Engineer in charge in his unquestioned discretion may consider as infringement of the above code would be considered as a breach of the contract conditions and shall be dealt with accordingly.

In case of any dispute or disagreement between the various contractors, the Engineer in charge decision regarding the co-ordination, co-operation and facilities to be provided by any of the contractor shall be final and binding on the contractor concerned & such a decision shall not vitiate any contract nor absolve the contractor of his obligations under the contract nor form the grounds for any claim or compensation.

8. **PATENTED DEVICES, MATERIALS AND PROCESS:**
Whenever the contractor desires to use any designed device, materials or process covered by letter of patent or copyright, the right for such use shall be secured by suitable legal arrangement and agreement with patent owner and the copy of their agreement shall be filed with the Engineer-in-charge, if so desired by the later.

9. **RELATION WITH PUBLIC AUTHORITIES:**
The contractor shall comply with all rules, regulations, bye-laws and directions given from time-to-time by any local or public authority in connection with this work and shall him-self pay all charges which are leviable on him without any extra cost of Government.

10. **INDEMNITY:**
The contractor shall indemnify the Government against all actions, suits, claims, and demands brought or made against it in respect of anything done or committed to be done by the Contractor in execution of or in connection with the work of this contract and against any loss or damage to the Government in consequence to any action or suit being brought against the contractor for any thing done or committed to be done for the execution of this contract. The Government may at its discretion and entirely at the cost of the contractor defend such suit, either jointly with the contractor or single in case the latter chooses not to defend the case.

11. **STACKING, STORAGE AND GUARDING OF MATERIALS:**
11.1 The stacking and storage of building materials at site shall be in such a manner as to prevent deterioration or inclusion of foreign materials and to ensure the preservation of the quantity, properties and fitness of the work, suitable precautions shall be taken by contractor to protect the materials against atmospheric action, fire and other hazards. The materials likely to be carried away by wind shall be stored in suitable stores or with suitable barricades and where there is likelihood of subsidence of soil, heavy materials shall be stored on paved platforms, suitable
separating barricades and enclosure as directed shall be provided to separate materials brought by contractor and from different sources of supply.

11.2 The contractor shall at his own expenses, engage watchman for guarding the Materials and plant and machinery and the work during day and night against any pilferage or damage and also for prohibiting tresspassers.

11.3 No Materials brought to site shall be removed from the site without prior approval of the Engineer –in-charge

12. The contractor shall inform the Engineer in charge in writing when any portion of the work is ready for inspection giving him sufficient notice to enable him to inspect these without affecting the further progress of the work.

12.2 The contractor shall provide at his cost necessary ladders and such arrangements as are considered safe by the Engineer in charge for proper inspection of all parts of the work.

12.3 The contractor shall extend his full co-operation and make all necessary arrangement when needed for carrying out inspection of the work or any part of the work by the local representative, M.L.A's M.P.'s and officers and dignitaries / delegates of various Government department, local bodies, private sectors etc. no compensation shall be paid to the Contractor on this account.

13. PRECAUTIONS TO BE TAKEN BY CONTRACTOR:

13.1 The work shall be carried out by the contractor without causing damage to the existing Govt. property and / or private property. If any such damages are caused the contractor shall pay for restoration of the property to the original condition and any other consequent damages.

13.2 In the event of an accident involving serious injuries or death of any persons, at site of work or quarry or at place in connection with the work the same shall be reported in writing within 24 hours of the occurrence to the Engineer in charge and the Commissioner of workmen's compensation.

14. CLEARANCE OF SITE ON COMPLETION OF WORK:

The contractor after completion of work shall clean the site of all debris and remove all unused materials other than those supplied by the department and all plant and machinery equipment, tolls, etc. belonging to him within one month from the date of completion of the work, or otherwise the same will be removed by the department at his cost or disposed off as per departmental procedure. In case the materials is disposed off by department, the sale proceeds will be credited to the contractor's account after deducting the cost sale incurred. However no claim of the contractor regarding the price or amount credited will be entertained afterwards.

15. REMOVAL OF CONSTRUCTIONAL PLANT WITH PRIOR PERMISSION:

All constructional plant, provided by the contractor shall when brought on the site be deemed to be exclusively intended for the construction and the contractor shall not remove the same or any part thereof (Save for the purpose of moving it from one part to the site to another) without the consent in writing of the engineer in charge who shall record the reasons for with holding the consent.

16. RESTRICTIONS BECUASE OF LOCAL TRAFFIC:

As there is local traffic by the side of construction of the work, the contractor will have to take proper precautions such as proper barricading, fencing, lighting, information and cautionary boards for safe and smooth flow of traffic, and keeping the concerned authorities informed about the work in progress.
17. **COMPLETION CERTIFICATE:**
17.1 The work shall not be considered to have been completed in accordance with the terms of the contract until the Engineer in charge shall have certified in writing to that effect. No approval of material or workmanship or approval of part of that during the progress of execution shall bind the engineer in charge or any way prevent him for even rejecting the work which is claimed to be completed and to suspend the issue or his certificate of completion until such alterations and modification or reconstruction have been effected at the cost of the contractor as shall enable him to certify that the work has been completed to his satisfaction.
17.2 After the work is completed, the contractor shall give notice of such completion to the Engineer in charge and within 30 days of receipt of such a notice the Engineer in charge shall inspect the work and if there is no defect in the work, shall furnish the contractor with a certificate indicating the date of completion. However, if there are defects which in the opinion of the engineer in charge are rectifiable he shall inform the contractor the defects noticed. The contractor after rectification of such defects shall then inform the engineer in charge and engineer in charge on his part shall inspect the work and issue the necessary completion certificate within 30 days if the defects are rectified to his satisfaction, and if not he shall inform the contractor indicating defects yet to be rectified. The time cycle as above shall continue.
17.3 In case defects noticed by the Engineer in charge which in his opinion are not rectifiable but otherwise work is acceptable at reduced payment, work shall be treated as completed. In such cases completion certificate shall be issued by the Engineer in charge within 30 days indicating the un-rectifiable defects for which specified reduction in payment is being made by him.
17.4 The issue of completion certificate shall not be linked up with the site clearance on completion of the work.
17.5 Should regular, public traffic be allowed on the bridge, road at any stage prior to being taken over then the maintenance period shall be deemed to commence from the date of such traffic passing over the bridge, road & shall be up to 30 days after the date of issue of completion certificate by Engineer in charge but not more than 12 months after opening to traffic.

18. **ANCILLARY WORKS:**
The contractor shall submit to Engineer in charge in writing the details of all ancillary works including layout and specifications to be allowed for its constructions. Ancillary work shall not be taken up in hand unless approved by Engineer in charge. The Engineer in charge reserves the right to suggest modification or make complete changes in the layout and specifications proposed by the Contractor at any stage to ensure the safety on the work site. The contractor shall carry out all such modifications to the ancillary works at his own expenses as ordered by the Engineer in charge.

19. **TEMPORARY QUARTER:**
The contractor shall at his own expense maintain sufficient experienced supervisory staff etc., required for the work and shall make his own arrangements for housing of such staff with all necessary amenities. General layout plan for such responsibility of the contractor to get his layout plan of temporary structure approved from the local competent authorities.

20. **SAFETY MEASURES:**
The contractor shall take all necessary precautions for the safety of the workers and preserving their health while working on such jobs as required special protection and precaution wherever required. The following are some of the requirements listed though not exhaustive. The contractor shall also comply with the directions issued by the Engineer in this behalf from time to time at all times.
The following are some of the requirements (The list is not exhaustive)
(1) Providing protective footwear to workers in situations like mixing and placing of mortar of concrete, in quarries and place where the work is to be done under too much wet conditions as also for movements over surfaces tested with oyster growth.

(2) Providing protective headwear to workers in quarries etc. to protect them against accidental fall of materials from above.

(3) Providing handrails to the edges of the loading platforms of barrages ropeways, ladders not allowing rails of metal parts or unless timber to spread around etc.

(4) Providing workmen with proper safety belts, ropes, etc. when working on any masts, cranes, circle hoist, dredges etc.

(5) Taking necessary steps towards training the workers concerned of the use of machinery before they are allowed to handle it independently and taking all necessary precautions in and around the areas where machines, hoists and similar units are working. Wherever required by the law the persons handling the machinery shall have the required license, certificate etc.

(6) Preventing over loading and over crowding of floating the land based machinery and equipment.

(7) Providing life belts to all men working at such situations from where they may accidentally fall into water. Equipping the boats with adequate numbers of life boats etc.

(8) Avoiding bare live wires etc. as would cause electrocution to workers.

(9) Making all platforms, stagings and temporary structures sufficiently strong and not causing the workmen and supervisory staff to take undue risks.

(10) Providing sufficient first aid trained staff and equipment to be available quickly at the work site to render immediate first-aid treatment in case of accident due to suffocation, drowning and other injuries.

(11) Taking the all-necessary precautions wherever divers are engaged on work.

(12) Providing full length gum boots, leather hand gloves, leather jackets with fireproof aprons to cover the chest and back reaching upto knees, plain goggles for the eyes to the labour working with hot asphalt, handling, vibrators in cement concrete and also where use of any or all these items is, essential in the interest of health and well-bring of the labourers in the opinion of the Engineer-in -charge.

21. **Medical and sanitary arrangements to be provided for labour employed in the construction by the contractor.**

(a) The contractor shall provide an adequate supply of pure and wholesome water for the use of labourers on works and in camps.

(b) The contractor shall construct trenches. Semi permanent latrines for the use of labourers. Separate latrine shall be provided for men and women.

(c) The contractor shall build sufficient number of huts on suitable plot of land for use of the labourers according to the following specifications.

(1) Huts of bamboos and grass may be constructed.

(2) There should be no over crowding. Floor space at the rate of 3 Sqm(30 Sq.ft.) per head shall is provided. Care should be taken to see that the huts are kept clean and in good order.

(3) The contractor must find his own land. If he wants Govt.land he should apply for it. Assessment for it if demanded will be payable by contractor. However the Department does not bind itself for making available the required land.

(4) A good site not liable to submergence shall be selected on high ground remote from jungle but well provided with trees; shall be chosen wherever it is available. The neighborhood of tank, jungles, trees or woods should be particularly avoided. Camps should not be established close to large cutting of earthwork.

(5) The lines of huts shall have open space of at least 10 meters between rows. When a good natural site cannot be procured particular attention should be given to the drainage.
(d) The contractor shall construct sufficient number of bathing places, sufficient number of washing places also be provided for the purpose of the washing cloths.

(e) The contractor shall make sufficient arrangement for draining away the surface and suage water as well as water from the bathing and washing places and shall dispose of the waste water in such away as not cause any nuisance.

f) The contractor shall engage a medical officer with a traveling dispensary for a camp containing 500 or more person if there is no Government or other dispensary situated within eight Kilometers from the camp. In case of an emergency contractor shall at his cost, free transport for quick medical help to his sick workers.

g) The contractor shall provide the necessary staff for affecting the satisfactory conservancy and cleanliness of the camp to the satisfaction of the Engineer -in charge .At least one sweeper per 200 person should engaged.

h) The Assistant Director of public health shall be consulted before opening a labour camp and his instruction on matters such as water supply, sanitary, convenience, the camp site, accommodation and food supply shall be followed by the contractor.

i) In addition to above all provision of the relevant labour act pertaining to basic amenities to be provide to the labour shall be applicable which will be arranged by the contractor

j) The contractor shall make arrangement for all anti malaria measures to be provided for the labour employed on the work. The anti malaria measures shall be as directed by the Public Health Officer.

22. The contractor except as provided in special conditions which follow shall if necessary construct at his cost temporary roads and maintain these in proper conditions till completion of the work at his own cost.

23. The contractor except as provided in special conditions which follow shall have to at his own expenses make all preliminary arrangements for labour, water, electricity and material etc. immediately after getting the work order. The Government may render necessary assistance in this regard by way of letters of recommendations, if so requested by the contractor. No claim for any extra payment or applications for extension of time on the grounds of any difficulty in connection with the above matters will be entertained.

24. WORKING METHODS AND PROGRESS SCHEDULES:

24.1 The contractor shall submit within the time stipulated by the Engineer-in-charge in writing the details as actual methods that would be adopted by the contractor for the execution of any items as required by Engineer at each of the location supported by necessary detailed drawing and sketches including those of the plant and machinery that would be used their locations arrangement for conveying and handling materials etc., and obtain prior approval of the Engineer-in-charge well in advance of starting of such item of works. The Engineer-in-charge reserves the right to suggest modifications or make corrections in the method proposed by the contractor whether accepted previously or not at any stage of the work to obtain the desired accuracy, quality and progress which shall be binding on the contractor no claim on account of such change in method of execution will be entertained by Government so long as specification of the item remain unaltered.

24.2 The contractor shall furnish within one month of the order to start the work programme of work in quadruplicate indicating the date of actual start, the monthly progress
expected to be achieved and anticipated completion date of each major item of work to be done by him also indicating dates of procurement of materials and setup of plant and machinery. The programme is to be such as practicable of achievement towards the completion of whole work in the time limit and of the particular items; if any of due dates specified in contract, planning and programme of work should be done by the mature decision between the Executive Engineer Public Works Division Wardha Dist Wardha and the contractors representative in charge of work. The progress of work shall be reviewed in every two months and revised programmes shall be drawn if necessary. No revised programme shall be operative without the approval of engineer in charge in writing. The Engineer is further empowered to ask for more detailed schedule or schedules say weekly for any item or items. In case of urgency of work as will be directed by him and the contractor shall supply the same and when asked for. Acceptance of the programme or the revised programme by the Engineer in charge shall not relieve the contractor of his responsibility to complete the whole work by the prescribed time or the extended time if any.

24.3 The contractor shall employ sufficient plant, equipment and labour as may be necessary to maintain the progress schedule. The working and shift hours restricted to one shift a day for operations to be done under the Government supervision shall be such as may be approved by the Engineer in charge. They shall not be varied without prior approval of the Engineer. Night work which requires supervision shall not be permitted except when specially allowed by Engineer in charge on each item if required by contractor. The contractor shall provide necessary lighting arrangement etc. for night work as directed by Engineer without extra cost to Government.

24.4 The contractor shall submit reports on progress of work in forms and statements etc. at periodical intervals in the form of progress chart, forms, statements and / or reports as may be approved by the Engineer in charge. Forms for the sending reports about the progress will be supplied by the Engineer in charge.

24.5 The contractor shall maintain proforma, charts, details regarding the machinery, equipments, labour, materials, periodical returns thereof, proforma to be got approved from the Engineer in charge.

25. **PAYMENTS**

The contractor must understand clearly that the rates quoted are for completed work and include all cost due to labour, all leads and lifts involved and if further necessitated, scaffolding, plants, machineries, supervision power, service works, royalties, octroies, taxes, etc. and should also include all expenses to cover the cost of lighting, night works if and when required & no claim for additional payment beyond the rates quoted will be entertained and the contractor will not be entitled subsequently to make any claim on the ground of any representation or on any promise by any person (whether member in the employment of any Public Works Department or not) or on the ground of any failure on his part to obtain all necessary information for the purpose of making his tender and fixing the several prices and rates therein relieve him from any risks or liabilities arising out of or consequences upon submission of the tender. Payment to the contractor will be made by the cheque drawn on any treasury within the division provided the amount to be paid exceeds Rs. 100/- shall amount will be paid in cash.
26. **CLAIM FOR EXTRA WORKS**:
26.1 Claim for extra works shall be registered within 30 days of occurrence of the event. However, bills for these claims along with supporting data details may be submitted subsequently.
26.2 Bills for extra works or for any claim shall be paid separately apart from the interim bills for the main works. The payment of bills for the main work shall not be withheld for want of decision on extra claim not covered in the schedule of item for extra work.

27. **BILLS AND PAYMENT**:
27.1 Two running payments in the month are permitted. First of the bills shall be submitted by the contractor by the 10th day of month. Second bill, if necessary, shall be submitted by the 25th day of the month.
27.2 The format of the running bill on which the bills are to be submitted by the contractor shall be supplied to the contractor by the department. Printed copies of the bills forms as per his format shall be arranged by the contractor at his cost. The bills in five copies shall be submitted to the concerned engineer's representative in the standard proforma only.
27.3 The final bill shall be submitted by the contractor within one month of the date of issue of completion certificate. The final bill shall be paid within six months of initial submission.
27.4 Recovery of secured advance shall be effected through bills proportionately as per consumption of materials in the work billed for.
27.5 The contractor can have true copy of the bills paid to him after paying charges for photocopying the same.

**CONTROLLED CONCRETE**:
Acceptance criteria shall be as per IS : 456 – 2000 (With latest amendments)

**NORMAL MIX CONCRETE**:
Acceptance criteria shall be as per IS : 456 – 2000 (With latest amendments)

28. **ASSISTANCE IN PROCURING PRIORITIES, PERMIT ETC.**:
28.1 The Engineer in charge on written request by contractor, will if in his opinion the request is reasonable and in the interest of work and its progress, assist the contractor in securing, the priorities for deliveries, transport, permits for controlled materials etc. where such are needed. The department however will not be responsible for the non-availability of such facilities or delays in this behalf and no claims on account of such failure or delay, shall be allowed by the Department.
28.2 The contractor shall have to make his own arrangement for machinery required for the work. However if same is conveniently available with the department it may be spared as per rules in force on recovery of necessary security deposit and rent at the rate approved from time to time by the independent to this contract and the supply or non supply of machinery shall not form a ground for any claim or extension of time limit for this work.

29. **WATER SUPPLY**:
29.1 Availability of adequate water for work and sources thereof shall be confirmed by the contractor before submitting the tender.
29.2 The contractor shall make his own arrangements at his own cost for entering into contract with concerned authority for obtaining the connection and carry the water up to the work site as required by him. The location of the pipeline with respect to the road shall be decided by Engineer-in-charge and shall be binding on the contractor. The department shall not bear any responsibility in respect of any problems and contractor shall not be liable for getting the any compensation on any ground. The progress of work shall not hamper for the above reasons.

29.3 The contractor is advised to provide water storage tanks of adequate capacity to take care of possible shut down of water supply system.

29.4 The contractor shall have to supply water required by the department for its establishment at work site free of cost.

30. **ELECTRICITY**

30.1 The contractor will have to make his own arrangement at his own cost for obtaining or providing electric supply at work site. The department shall not bear any responsibility in respect of any problems and contractor shall not be liable for getting any compensation on any ground. The progress of work shall not hamper for the above reasons.

30.2 Electrical supply for the Department's use at work site shall be provided by the contractor on mutual agreed terms. The contractor may not abide by these conditions when power supply at the site fails.

31. **TELEPHONE FACILITIES**

The contractor will have to make his own arrangement at his own cost for a telephone connection at work site if required.

32. **MATERIAL SOURCES**

32.1 The contractor shall make their own independent investigation as to the availability as well as suitability of various materials required for construction as referred to in these paras.

32.2 If any quarry is in the possession of the department the contractor will be allowed to use the same on usual condition. In other cases, the contractor will have to make his own arrangement for procuring quarries or the quarry permits, necessary assistance for which will be given by the department.

32.3 Lime stone shall not be permitted for any concrete work.

33. **LAND**

33.1 The contractor shall make all efforts to obtain land required for the ancillary works. In case the contractor is unable to obtain land and if requested, then the department may requisitioned land at his own cost.

33.2 Land as available with department for requisitioned by the department at the request of a contractor will be handed over to the contractor for such use as will be necessary for ancillary works, on payment of rent to the department. Plot development if any will have to be done by the contractor at his own cost. The development shall be in conformity with the regulations with the local authorities.

33. If for the purpose of construction of the work it becomes necessary for the contractors to occupy land not in possession of the department, the contractors will have to make his own arrangement with the land owners, and pay such compensation as a mutually agreed between them. on completion of work, all land mentioned in para 33.1 and 33.2 and 33.3 shall be handed back to the owners or the department as the case may be after cleaning the land as directed by the Engineer in charge.
33.4 Dismantling of building on a Govt. or department land shall be done only after the approval of Engineer-in-charge.

34. FLOODS AND ACCIDENTS:
The contractor shall take all precaution against damages by floods or from accidents etc. No compensation will be allowed to the contractor on this account or for correction and repairing any such damage to the work during construction. The contractor shall be liable to make good at his cost any plant or material belonging to the Govt. loss or damaged by floods or from any other cause while in his charge. The proof of occurrence of flood report with flood level will have to be furnished by the contractor. No compensation will be allowed for damages on ancillary items and equipments etc which are brought to the site by the contractor for effecting execution of work.

35. URGENT WORK:
If any “Urgent Works”(In respect where decision of the Engineer-in-Charge shall be final and binding) become necessary and contractor is unable or unwilling to carry it out at once, the Engineer in charge by his own or through the other people have it carried out as he may consider necessary. If the Urgent Work shall be such as in the opinion of the Engineer in charge the contractor is liable under the contract to carry out at his expenses. All expenses incurred on it by the department shall be recoverable from the contractor, and be adjusted or sets off against any sum payable to him.

36. CHANGE OF CEMENT CONTENT ETC.:

<table>
<thead>
<tr>
<th>SR.No.</th>
<th>Grade of concrete</th>
<th>Consumption of cement in bags / Cum</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>M-10</td>
<td>4.40 bags</td>
</tr>
<tr>
<td>2</td>
<td>M-15</td>
<td>6.27 bags</td>
</tr>
<tr>
<td>3</td>
<td>M-20</td>
<td>7.10 bags</td>
</tr>
<tr>
<td>4</td>
<td>M-25</td>
<td>7.50 bags</td>
</tr>
</tbody>
</table>

Note: The weight per bag of Cement is considered as 50 Kg

Consumption rate of cement is for OPC. In case, contractor desires to use PPC then he should get mix design for all grades of concrete mentioned above and in schedule 'B' from reputed laboratory as approved by Engineer-In-Charge at no extra cost to Government.

The rate of consumption of cement for various grades of concrete referred above is a theoretical rate of consumption assumed for the estimate purpose. The contractor will have to obtain an economic mix design for grades of concrete M-20 and above and get it approved from the Engineer-in-charge. The specification for controlled cement concrete shall be as per standard specification No. B-7 Page 38, and IS 456-2000.

Immediately upon the receipt of the award of the contract, the contractor shall inform the Engineer the exact location of the sources of the acceptable material. The concrete mix to be used shall be got designed P.W.D laboratory, by the contractor with a optimum quantity of cement to give the specified strength in the preliminary tests and the proportion got approved by the engineer in writing. These proportions shall be used so long as the materials continue to be of the same quality and from the same sources subject only to slight changes in the relative quantities of fine and course aggregate for the purpose of promoting workability provided the work tests also shows the required strength.

If such Mix design involve change in cement consumption upto 2 % on the higher or lower side, no adjustment in the cost of the item to be paid to the contractor shall be
made. If such alterations, changes, theoretical consumption of cement by more than 2 
% on the higher or lower side, the sources and quality of aggregate remaining the same, 
payment will be adjusted for or against the contractor in whatever amount the total cost 
of cement to the contractor has been increased or decreased by more than 2 %. The 
amount of such increase or decrease shall be calculated on the basis of quantity of cement determined and prescribed in the above table. In adjusting the cost only the cost 
of cement shall be considered and not handling or other charges, which shall be treated 
as incidental to the item for working out the cost towards adjustments in cement 
consumption the basic for cement shall be star rate as indicated in clause 54. If during 
the progress of work the contractor wishes to change the material, the proportions shall 
be fixed on the basis of fresh preliminary tests to give the required strength after the 
Engineer is satisfied that the material satisfy the specifications. No adjustment of the 
cost shall be made for a change of proportions of cement fixed in the original preliminary 
tests. For all concrete items only trap metal shall be used.

37. **CONTRACTOR TO INFORM HIMSELF FULLY**:

The contractor shall be deemed to have carefully examined the work and site 
conditions including labours, the general and the special conditions, the specifications 
schedule and drawing and shall be deemed to have visited the site of the work and to 
have fully informed himself regarding the local conditions and carried out his own 
investigations to arrive at the rates quoted in the tender. In this regards he will be given 
necessary information to the best of the knowledge of Department but without any 
guarantee about it. If he shall have any doubt as to the meaning of any portion of these 
general conditions, or the special conditions to the scope of working of the specification 
and drawings, or any other matter concerning the contract, he shall in good time before 
submitting his tender set forth the particulars thereof and submit them to the Engineer in 
writing in order that such doubt may be clarified authoritatively before tendering. Once a 
tender is submitted the matter will be decided in accordance to the tender conditions in 
absence of such authentic clarification.

38. **ERRORS, OMISSION & DISCREPANCIES**:

a) In case of errors, omissions and / or disagreement between written and scaled 
dimensions in the drawing or between the drawing and specifications etc., the following 
order of preference shall apply.

(i) Between actual scaled and written dimensions or description on a drawing the 
latter shall be adopted.

(ii) Between the written description or dimensions in the drawing and the 
corresponding one in the specifications, the latter shall apply.

(iii) Between the quantities shown in the schedule of quantities and those arrived at 
from the drawing the latter shall preferred

b) In all cases of omissions and/or doubts or discrepancies in the dimensions or of any 
item or specification a reference shall be made to the engineer, whose elucidation, 
elaboration or decision shall be considered as authentic. The contractor shall be held 
responsible for any errors that may occur in the work through lack of such reference and 
precautions.

c) The contractor should not sublet any part of work without written permission of the 
Engineer in charge.
39. **SAMPLES AND TESTING OF MATERIALS:**

(i) All materials to be used on work, such as cement, steel, stones, bricks, aggregates, asphalt, wood, tiles, etc. shall be got approved in advance from the Engineer-in-charge and shall pass the tests and analysis required by him.

(ii) The contractor shall at his risk and cost make all arrangements and/or shall provide for all such facilities as the Engineer in charge may require for collecting, preparing and forwarding required number of samples for tests or for analysis to the nearest approved laboratory and bear all charges and cost of testing. Such samples shall also be deposited with the Engineer-in-charge till sent for testing. Out of total number of tests as per frequency requirement 20% of these tests shall be carried out in P.W. Department Laboratory.

(iii) The contractor shall if and when required submit at his cost the samples of materials to be tested or analysed and if so directed shall not make use or incorporate in the work any material represented by the samples until the required tests or analysis have been made after the test of the materials finally accepted by the Engineer-in-charge.

(iv) **Testing of Material:**

1) Frequency of testing of the construction material and the percentage of the testing from the Government laboratory shall be as under:

   a) Where the field laboratory certified by the concerned Engineer in charge is established at the work site 70% test as per total frequency required shall be carried out in the said field laboratory and 30% tests shall be carried out at the Vigilance and Quality control laboratory of P.W.D M 86 to 89 for the material not covered in the annexure X 50% tests shall be carried out in the field laboratory and remaining 50% tests need to be carried out in the vigilance and quality control laboratory of P.W. D Maharashtra, The entire responsibility of the sample testing as per required frequency including testing charges will be borne by the agency.

   b) Where field laboratory is not established at the worksite 100% tests as per frequency shall be carried out in the Vigilance and quality laboratory Nagpur.

   c) Testing of cement and steel 100% in Vigilance and quality laboratory Nagpur is compulsory.

   d) It is mandatory to submit the test reports of Materials used for the work as per the frequency along with the bill. If the test results are not submitted along with the bill, an amount equal to five times the testing charges shall be deducted from bill.

2) Mixing of concrete shall be done with concrete mixers.

3) The Contractor shall make field arrangements for testing of all materials for cement concrete i.e. slump test, bulking test, etc. The contractor shall make arrangement of testing of cement concrete cubes by using SCADA based compression testing machine installed at field laboratory at his own cost. The concrete cube mould 3 Nos. of 15 cm x 15 cm x 15 cm. size shall be kept at site during concreting operation. One set of six 15 cm. (about 6" cubes shall be prepared from the concrete to be used in work for compression test on the first three days operation an thereafter for every 60 cubic metre of concrete of three days work whichever is less. If source of aggregate or grading is changed, one set of six test cubes shall be taken for each changed batch. Three cubes shall be tested for test at 7 days age and 3 at 28 days in Regional Testing Lab of P.W.D. at Nagpur/Wardha. All the testing charges shall be paid by the contractor. The entire responsibilities of the testing of materials will be borne by the contractor.
(4) For providing Electric Wiring, Duct tubes of the required diameter and length shall be provided through walls, beams and floors, slabs as and when directed without any extra cost.

(5) (a) The contractor shall make his own arrangement for receiving all materials, tools, etc. required for the work.
(b) No extra charges for carriages of water will be allowed.
(c) The rates for all items are inclusive of all charges such as carting, lifting, etc. No extra payment for any lead and lift will be paid for any items.
(d) A frequency of testing shall be as per relevant works specification. In case such frequency is not specified in the works specification then the IS code will be referred and for other cases where IS code do not stipulated the frequency of testing, it will be as directed by Engineer in charge and should be furnished in specified test abstract
Annexure X page 86 to 89
(e) The Contract should not be sublet without written permission of Executive Engineer
(f) Tender condition of tender notice will be binding on contractor and etc tender notice will form a part of agreement

40. **WEIGH BATCHING:** The following instructions shall be followed as regards to preliminary designs of mix and methods of batching of plain cement concrete and reinforced cement concrete. The preliminary mix design and batching for various grades of concrete shall be governed by the guidelines as per I.S. 456-2000. It will be the responsibility of the contractor to obtain the mix design for various cement concrete grades at his cost from the P.W.D laboratory.

41. **MISCELLANEOUS:**

41.1 **ERASER:**
Person tendering are informed that no erasers or any alteration by them in the text of the documents set herewith will be allowed and any such eraser or an alteration will be disregarded. If there is any error in writing no overwriting should be done but the wrong words or figures should be struck out and the correct one written above or near it in an unambiguous way. Such correction should be initialed and dated.

41.2 **ACCEPTANCE:**
Intimation of acceptance of tender will be given by a telegram or a letter sent by registered post to the address given below the signature of the tenderer in the tenders. The tenders which do not fulfill any of the above conditions or those in the form and which are incomplete in any respect shall be liable for rejection.

41.3 **COMPETENCY OF TENDERERS:**
The work will be awarded only to those contractors who are considered to be responsive bidders, capable of performing the class of work to be completed. Before passing the final award any or all bidders may have to show that he has the necessary experience, facilities, ability and financial resources to execute the work in satisfactory manner and also within the stipulated time. The bidders may also be required to furnish to the Department a statement in respect of their experience and financial resources.

41.4 **PRECAUTIONS TO BE TAKEN BY THE CONTRACTOR TO PREVENT ACCIDENT:**
1) No live electric line should be allowed to run along the ground in the blasting zone and they should be at least 3 m above ground if not more.
2) The wiring cable should not be taken near the live electric line and it should be preferably shot firing cable as supplied by the supplier of explosives. If such a cable is not available a substitute cable made up of several pieces jointed and tapped be used.

3) The blasting shed from where the exploder is to finally operate should be at least 150 m. away from the area to be blasted. It should have a strong roof, which can withstand the impact of flying stones at this range.

4) Only trained hands shall be allowed to handle explosive cable detonators etc.

41.5 **POLICE PROTECTION**

For the police protection of the camp of the contractor’s work, the Deptt. will help the contractors as far as possible to arrange for such protection with the concerned authorities the cost shall be borne by the contractor.

41.6 For providing electric line and water line etc. recesses shall be provided. If necessary, through walls, slabs, beams, etc., and later on refilled it with a bricks or stones, chipping cement mortar without any extra cost.

41.7 In case it becomes necessary for the due fulfillment of the contractor for contractor to occupy land outside the department limits, the contractor will have to make his own arrangement with the land owners and pay such a rents, if any, which are payable as mutually agreed between them.

41.8 The contractor shall duly comply with the provisions of the Apprentices Act. 1961 (iii of 1961) and the rule and orders made there under from time to time under the said Act and the said Rules and on his failure or neglect to do so he shall be subject to all the liabilities and penalties provided by the said Act and Rules.

41.9 It is presumed that the contractor has gone carefully through the standard specification (Vol. I & II 1981 edition) and the schedule of rate of the Division, and studied of site conditions before arriving at rates quoted by him. The special provisions and detailed specification of wording of any item shall gain precedence over the corresponding contrary provisions (if any) in the standard specification given without reproducing the details in contract. Decision of Engineer-in-charge shall be final in case of interpretation of specification.

41.10 If the standard specifications fall short for the items quoted in the schedule of this contract reference shall be made to the latest Indian Standard Specifications, I.R.C. codes, and MOST specification if any of items of this contract do not fall in reference quoted above, the decision and specifications as directed shall be final.

42. **LOAD TESTING**

The Engineer in charge is empowered to order load testing of the building or its component wherever there is a doubt about the workmanship or the safety of the bridge component or whenever there is a need to confirm the workmanship and the safety of the structure by carrying the load test. The load testing shall be carried out as per specifications B.R. 58 of the book of standard specifications published by B & C Department, Govt. of Maharashtra, with such specifications as ordered by Engineer in charge.

(1) The load for such load test shall be full dead load (excluding self load of the member under test) plus 125 % maximum design live load (including impact) in case of R.C. bridges.
(2) The load testing will be carried out by the department through a suitable competent agency. Test results from such agency as will be fixed by department will be binding on the contractor.

(3) If the result of the load test are not found to be satisfactory, the contractor shall strengthen the already cast member or reconstruct the members at his cost and also bear the cost of load test. The decision of the Engineer in charge will be final in this case.

43. **SPECIAL CONDITIONS:**

43.1 The contractors should ensure that all safety precautions are observed by their labours, working closed to the State Highway and while closing the state Highway precautions are taken including insurance etc., for their labour at the cost of the contractor etc. if any accident occur to the labour etc., no claim in this regard on whatsoever account shall be entertained and the decision of the Department will be final and conclusive.

43.2 **During the execution if there is any change in:**

   (i) Span Arrangement.
   (ii) Height of substructure and superstructure above ground level.
   (iii) Change in the depth of foundation, tendered rate for respective items will hold good and no extra claims shall be entertained on this account.

43.3 Contractor shall observe the rules and regulations empowered by traffic police for smooth flow of traffic on the diversion road and shall not be entitled for claim any compensation arising thereof.

44. **DEFINITIONS:** Unless included by or repugnant to the contents

   (a) Government: The expression “Government” as used in the tender documents shall mean the Public Works Department of the Government of Maharashtra.

   (b) Chief Engineer: The expression ‘The Chief Engineer’ as used in the tender papers shall mean Chief Engineer P.W. Region Nagpur

   (c) Superintending Engineer: The expression ‘Superintending Engineer’ as used in the tender papers shall mean the officer of Superintending Engineer’s ranks (by whatever designation he may be known) under whose control the work lies for the time being.

   (d) Engineer-in-charge: The expression Engineer or Engineer-in-charge as used in the tender paper shall mean the Engineer-in-charge of the work.

   (e) Contractor: The expression ‘Contractor’ as used in the tender papers shall mean the successful tenderer that is the tenderer whose tender has been accepted and who has been authorised to proceed with the work.

   (f) Contract: The expression ‘Contract’ as used in the tender papers shall mean the deed of contract together with all its original accompaniments and those later incorporated in it by mutual consent.

   (g) Plant: The expression ‘Plant’ as used in the tender papers shall mean every temporary accessory necessary or considered necessary by the Engineer to execute, construct, complete and maintain the work and all altered, modified, substituted and additional works ordered in the time and the manner herein provided and all temporary materials and special and other articles and appliance of every sort kind and description whatsoever intended or used therefore.
45. **MIX DESIGN**

45.1 The following instructions shall be followed as regards preliminary design of mix and methods of batching of plain cement concrete and reinforced cement concrete. These instructions should be treated as supplementary to the relevant provision in the specifications for the respective items contained in the book of standard specifications and will override the provisions contained therein wherever they are contrary to the following instructions.

The preliminary mix design and batching for various grades of concrete shall be governed by the following guidelines.

<table>
<thead>
<tr>
<th>Concrete Grade</th>
<th>Guidelines</th>
</tr>
</thead>
<tbody>
<tr>
<td>1) Upto M-15:</td>
<td>This should only be ordinary concrete. No change may be prescribed in the present practice as regards preliminary design of mix and permitting volume batching. Only cement to weight batched</td>
</tr>
<tr>
<td>3) M-20 and above</td>
<td>Preliminary mix design must be prepared for such mixes. Weight batching shall be insisted for cement fine aggregate and course aggregate.</td>
</tr>
</tbody>
</table>

45.2 For the grades of concrete M-20 and above the preliminary mix design shall be carried out from the approved laboratory.

1) The charges for preliminary design, of concrete mix shall be entirely borne by the contractor.

2) For grades of concrete M-20 and above where cement is to be used by weight, the cost of extra cement required to make-up the under-weight bags shall be borne by the contractor.

3) For the items of concrete of grades lower than M-20 and other items in the agreement, where cement is not to be used by weightment, the cement bags as received from the manufacturer and supplied to the contractor under Schedule ‘A’ shall contain cement of 50 Kg. net weight.

45.3 The admixtures such as plasticizers/super plasticizers for concrete grade M-20 and above shall be used as directed by Engineer in charge depending upon specific requirements. No extra payments on this account will be admissible.
ADDITIONAL TENDER CONDITIONS

(1) **SUPPLY OF COLOUR RECORDS PHOTOGRAPHS AND ALBUM.**
The Contractor shall arrange to take Color Photograph at various stage / facets of the work including interesting and novel features as desired by the Engineer in charge. Photographs shall be of and taken to the standard post card size marked in album of acceptable quality. Also the negative film in 35 mm size shall be supplied for each photograph in the Album shall be suitably captioned. The Contractor shall arrange for taking video films of important activities of the work as directed by the Engineer in charge during the currency of the project & editing them to a video film of playing time not less than 60 minutes & upto 180 minutes as directed by Engineer in charge. It shall contain narration of the activities in English / Marathi by a competent narrator. Videocassette shall be of acceptable quality & film shall be capable of producing color picture. It shall be considered as incidental to the work and no additional payment whatsoever will be made for the same.

(2) After award of contract, contractor will have to provide and fix the information boards showing name, tender cost, period of completion, name and telephone number of agency and Engineer in charge and other details as directed by Engineer in charge.

(3) **Insurance of Contract Work:**
Contractor shall take out necessary insurance Policy/Policies (viz Contractor's all risk Insurance policy, Erection all risk insurance policy etc as decided by the Directorate of insurance.) so as to provide adequate insurance cover for execution of the awarded contract work for total contract value and complete contract period compulsorily from the "Directorate of insurance, Maharashtra State ,Mumbai" only. Its Postal address for correspondence is 264, MHADA ,First floor ,Opp .Kalamagar, Bandra (E) Mumbai 400051 (Telephone Nos 26590403 / 26590690 and Fax No 26592461/26590403) Similarly all workmen's appointed to completed the contract work are required to insure under workmen's compensation Insurance policy. Insurance Policy/Policies taken out from any other company will not be accepted. If any Contractor has effected Insurance with any insurance company, the same will not be accepted and the amount of premium calculated by the Government Insurance fund will be recovered directly from the amount payable to the contractor for executed contract work and paid to the Directorate of Insurance fund, Maharashtra State. Mumbai .The Director of Insurance reserves the right to distribute the risk of Insurance among the other insurees.
(4) A board 0.90 m x 0.60 m showing following information shall be provided by contractor at no extra cost to the Government

| 1. | $\text{A}^{\text{009}}\text{Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô Ô}$ |

SPECIAL CONDITIONS

(1) Construction Machinery / Equipments:

1.1 The methodology and equipments to be used on the project shall be furnished by the Contractor to the Engineer-In-Charge well in advance of commencement of work and approval of the Engineer-In-Charge obtained prior to its adoption and use.

1.2 The Contractor shall give a trial run of the equipment for establishing its capability to achieve the laid down specifications and tolerance to the satisfaction of the Engineer-In-Charge before commencement of work, if so desired by the Engineer-In-Charge.

1.3 All equipments provided shall be of proven efficiency and shall be operated and maintained at all times in the manner acceptable to the Engineer-In-Charge.

1.4 No equipment or personnel shall be removed from site without permission of the Engineer-In-Charge.

(2) Work Programme and Methodology of construction:

The Contractor shall furnish his programme of construction, for execution of the work within the stipulated time schedule together with methodology of construction of each item or work and obtain the approval of the Engineer-In-Charge to the revised programme, if necessary.

(3) Revised Programme of Work in case of slippage:

In case of slippage from the approved work programme at any stage, the contractor shall furnish revised programme to make up slippage within the stipulated time schedule and obtain the approval of the Engineer-in-Charge to the revised programme.

(4) Action in case disproportionate progress:

In case of extremely poor progress of the work or any item at any stages of work which in the opinion of the Engineer-In-Charge can not be made good by the Contractor considering his available resources, the Engineer-In-Charge will get it accelerated to make up the lost time through any other agency, and recover the additional cost incurred, if any, in getting the work done from the Contractor after informing him about the action envisaged by him.

(5) The responsibility of assuring the quality of work shall be on the contractor who shall take actions as stipulated in standard specification as per "Schedule C".

(6) Labour Licence: It shall be obligatory on the part of the contractor to obtained the necessary labour licence from the labour Department within fortnight of issue of work order.

(7) Setting-out:

Setting-out the works as spelt out in clause 109 of Ministry’s specifications for Road and Bridge works (2nd Revision) will be carried out by the Contractor.

(8) Public Utilities:

Action in respect of public utilities will be taken by the Contractor as envisaged in Clause 110 of Ministry’s Specifications for Road and Bridge work (2nd Revision).

(9) Arrangement for traffic during construction:

Action for arrangement for traffic during construction will be taken by the Contractor as envisaged in the contract documents and spelt out in clause 112 of MORTH Specification for Road and Bridge Work (2001).

(10) It shall be the responsibility of the contractor to achieve quality of work as stipulated in section 900 of MORTH Specification for Road and Bridge Work (2001).
(11) MORTH Specification for Road and Bridges Work latest edition with all amendments: MORTH Specification for Road and Bridge Work (2001) shall form part of the contract documents and the contractors shall be legally bound to the various provisions made therein unless and otherwise specifically relaxed or waived wholly or partly by any special clauses in the contract documents.

(12) Applicable in case of Road works only. The details of the paver, specified in the clause 504.3.5 will be relaxed in the case of bituminous macadam (clause 504) where it is going to be covered by any wearing course other than semi-dense Bituminous Concrete (Clause 501) / Bituminous Concrete (clause 512) or by a base course of Dense Bituminous Macadam (clause 507) with the provision that it can be laid by means of self-propelled mechanical paver with suitable screeds capable of spreading, temping and finishing the mixture to the specified lines, grades and cross sections.

(13) Special Condition for B.T. work: In respect of Black Top Work, 15% (Fifteen P.C.) payment of Block Top in a particular km will be retained till completion of side berms / C.D. Works etc. in that km. After completion of other items satisfactorily, the withheld payment will be released finally.

(14) The contractor has to ensure that the hot mix temperature is within the specified range as per MOST specification at the time of laying of hot mix

(15) The location of the hot mix plant to be used for the work shall not be more than 60 Kms from the farthest point of work measured along motorable road.

(16) (a) The aggregate required for the item of Hot Mix shall be screened in “mechanical Vibratory Screening Unit” so as to comply with the grading requirement as specified in MORT&H specification and then only shall be fed to the Hot Mix Plant for heating and mixing. The Mechanical Vibratory screening unit shall consist of main input hopper to receive raw metal, conveyor belt to transport it to the “Mechanical Vibratory Screening Unit.” The Mechanical Vibratory screening unit shall have required number of trays, sieves/decks as directed by Engineer In charge. The output of Mechanical Vibratory Screening unit shall be conveyed to the “storage unit /feeder”. The metal so supplied from the “Mechanical Vibratory Screening unit” at site shall not exempt the contractor from carrying out tests as specified in the specifications.

(b) However if the mechanical Vibratory Screening unit is installed at quarry site, the contractor shall provide Vehicle Tracking System for all vehicles used for the particular work of PWD. The contractor shall provide web application that will show all vehicles of the contractor on a GIS map along with the hot mix plant. The contractor shall also provide software that will update the entire mapping on the PWD’s e-governance works management system. The system of complete management of VTS for monitoring by the PWD staff shall have to be provided by Contractor at his own cost.

(c) The above condition of installation of Mechanical Vibratory screening unit shall be exempted only if the contractor uses the batch mix plant (Min 120 TPH) with SCADA base e-monitoring system.
For Grade I / Grade II / Grade III / WBM and for BUSG work metal shall be supplied at site only after screening it on "mechanical vibratory screening unit". The special "mechanical vibratory screening unit" arrangement shall consist of main input hopper to receive raw metal, conveyor belt to transport it to the "mechanical vibratory screening unit". The "mechanical vibratory screening unit" shall have required number of trays, sieves/decks as directed by the Engineering in charge. The output of "mechanical vibratory screening unit" shall be conveyed to "storage Unit" where metal of different sizes, shall be stored separately.

Metal so supplied shall undergo all the tests as per the specifications.

As a input to the main input hopper, contractor may use hand broken metal or output of primary crusher of size not less than 24"x18".

The metal so supplied from the "mechanical Vibratory screening unit" at site shall not exempt the contractor from carrying out tests as specified in the specifications.

WORK METHODOLOGY FOR SEAL COAT

Liquid seal coat shall be executed as per clause No.513 of specification for roads and Bridges work of MORT&H specification 2001 and latest reprint amendments. Prepartaion of surface to receive seal coat shall be as per 513.3.3.2 and in one go 200 m only.

of the area of seal coat executed during his tenure. Construction of seal coat shall be as per clause 513.3.3.3 and shall be for 200 m length prepared as above. The Preparation of surface for seal coat and construction of seal coat as per clause 513.3.3.2 & 513.3.3.3 responsively as mention above shall be done in 200m in one go and the cycle of during in 200m shall be repeated throughout the day and at the end of the working day any fraction left measuring less than 200 m shall be done seperately.

PROGRESSIVE METHODOLOGY.

The work methodology as described above shall then be folloewd for next 200mts. and thus progressively for entire length of road.

MODE OF INSPECTION AND MEASUREMENT

The Executive Engineer shall remain present and peresonally supervise the first 200 mts. length accordingly in presence of Deputy Engineer, Junior Engineer and Contractor/Contractor's representative complete work of.

The Deputy Engineer shall remain present and personally supervise at least 25% of the area of seal coat executed during his tenure.

The Junior Engineer shall remain present and personally supervise cent percent length executed during his tenure.

The Executive Engineer shall show the check measurement of carpet and liquid seal coat accordingly in the measurement book for the executed 200 Mtr. demo length. This check
measurement shall be part of percentage check measurement required by Executive Engineer as per the Maharashtra Public Works Manual, Appendix-24.

The measurement of liquid seal coat of the work shall be recorded by Deputy Engineer only.

19) **Supervising control and data acquisition for Bituminous item & W.B.M.**

Engineer Incharge shall allocate unique identification number to the work of this contract. For all Bituminous items under this contract, the contractor shall provide web-based Supervisory Control and Data Acquisition (SCADA) arrangements for the following

(A) **DRUM-MIX PLANT**

(i) Temperature of metal before mixing.

(ii) Temperature of bitumen before mixing.

(iii) Temperature of mix material.

(B) **MIX TRANSPORTATION**

(i) Vehicle tracking system (VTS) for all vehicles transporting bituminous mix.

(C) **ROLLERS / COMPACTORS**

(i) Temperature of mix during compaction.

(ii) Vehicle tracking to monitor movement of Roller / Compactor and so as to give approximate number of passes of Roller / Compactor.

D) **SPRAVER UNIT**

(i) Temperature of bitumen at the time of spraying.

(ii) Movement of spraying unit, so as to give rate of spray of bitumen in kg per square meter.

(E) **GIS MAP**

Displaying locations of Hotmix Plants, Tippers used for hotmix material transportation, Roller and Sprayer on GIS map.

(F) Communicate the Data which is beyond the set parameters by SMS and e-mail to the representative of Engineer Incharge for all above A to E.

THE OFFER OF THE CONTRACTOR SHALL INCLUDE:

1) The cost of procuring, establishing, running, operating & maintaining SCADA including all Censors, Vehicle Tracking System (VTS) and any other instrumentation, automation required to acquire the desired data, mentioned at (A), (B), (C), (D), (E), (F), above.

2) Web connectivity to all locations where data is being acquired, transmitted, processed, stored and retrieved with minimum speed of 1 MPBS and 100% availability. The contractor shall provide the web application in such a manner that it shall also update the above data in real time on PWD's works monitoring e-governance web application automatically.

3) Web-based application including Computer Software, Hardware etc. to transmit, process, store and retrieve the data in the forms and formats as prescribed by the Engineer Incharge.
(4) Arrangement for security of data. Disaster recovery arrangements shall be as per I.T. Industry practice, during the construction period and upto defect liability period (DLP). Handing over the data on the Web Server after DLP in Electronic form as instructed by Engineer Incharge.

(5) Calibration of all SCADA related attachments / accessories as per the specification. Web based application to monitor the schedule of Calibration of all SCADA related attachment/accessories. The invalidity of calibration shall lead to non-acceptance of work or measurement and the Contractor shall not be paid for such non-accepted work or measurements.

(6) Submission of printed and authenticated reports to the Engineer Incharge as and when required.

(7) Point (1) to (6) above shall be arranged and maintained during contract period and defect liability period.

(8) Cost includes rectification, fine tuning, corrections, additions & alterations to the system to the satisfaction of Engineer Incharge.

(9) All data generated as per this special condition of contract shall be the property of PWD.
**SCHEDULE ‘A’**

1) All the materials are to be procured and brought by the contractor at the site at his own risk and cost.
2) Physical properties shall be confirmed with M.O.S.T./I.S./I.R.C specification.
3) Stipulated test shall be carried out by the contractor at his own cost as per the frequency.
4) Custody of material shall be sole responsibility of the contractor.
5) The proof of purchase of all materials should be produced during the execution of work and along with bill
6) The grade of cement shall be got approved from the Engineer – in-Charge
CONDITIONS FOR THE MATERIALS TO BE PROCURED BY THE CONTRACTOR

1. Cement:

Only Ordinary Portland cement 43 grade conforming to the I.S.: 8112 shall be permissible for the work. Independent testing of cement used shall be done by the contractor at site and in the laboratory approved by the Engineer-in-charge before use. Any cement with lower quality than that shown in the manufactures certificate shall be debarred from use. In case of finally ground cement or imported cement, the Engineer-in-charge may direct the contractor to satisfy him as to the acceptability of such cement, especially with regard to creep and shrinkage effect. Any consignment or part of a consignment of cement, which has deteriorated in any way, shall not be used in the works and shall be removed from the site by the contractor without charge to the employer. Cement shall be transported, handled and stored on the site in such a manner as to avoid deterioration and contamination. Each consignment shall be stored separately so that it may be readily identified and inspected and cement shall be used in the sequence in which is delivered at site.

The contractor shall prepare and maintain proper records on site in respect of the delivery, handling storage and use of cement and these records shall be available for inspection by the Engineer-in-charge at all times.

2. Mild Steel/T.M.T Steel

T.M.T steel shall comply with IS: 1786 and “Mild Steel” bars shall comply with IS: 432.

All reinforcement shall be free from rust loose mill scale or coats of Oil, Paints etc. which may destroy bond and protected by anti corrosive treatment before placing in position for concreting.

The agency should use the steel manufactured by the Main Producers only. No re-rolled steel shall be incorporated in the work.

3. Bulk / Packed Bitumen

(1) 60/70, grade bitumen as specified in respective items shall be used.
(2) Bitumen brought on site confirm to the requirement of the pertinent grade in I.S. 73 – 1992. (With latest Amendments)
(3) Testing has to be arranged by the contractor from recognised laboratory at his own cost for all tests mentioned in I.S. 73 – 1992. (With latest Amendments)
(4) The material brought by the agency will be open to check by Executive Engineer in-charge or his representative at all times. The agency should draw the D.D. on the refinery on account of Engineer-in-charge He should submit bill from the refinery itself only. No other bill than refinery unit will be accepted by department and no claim of contractor will be admissible. For other activities, like storage, weighments, specification number RD 42, Page 216 referred. Contractor has to arrange static tanks for storage of bulk bitumen. If it is decided to procure bulk bitumen contractor shall intimate Engineer in charge well in advance. Consignment will not be allowed to unload until its weight is checked on Weigh Bridge by department persons. Bitumen shall be procured from Govt. Refinery only.

4. Rejection of Materials not conforming to specification:

Any Stock or batch of material(s) of which sample(s) does not confirm to the prescribed test and quality, shall be rejected by the Engineer-in-charge or his representative and such materials shall be removed from the site by the contractor at his own cost. Such rejected materials shall not be made acceptable by any modifications. Materials not corresponding in character and quality with approved samples will be rejected by the Engineer-in-charge or his representative and shall be removed from the site at the end of working season will not be allowed to use for any component of work in the next seasons.
ADDITIONAL CONDITIONS FOR CEMENT, STEEL, BITUMEN BROUGHT BY THE CONTRACTOR.

1) All the materials required for construction of work shall be arranged by the contractor at his own cost. The samples of material to be procured shall be got approved by the Engineer-in-charge and material as per approved samples shall only be procured.
2) The contractor shall submit periodically as well as on completion of work, an account of all materials brought by him in a manner as directed by Engineer-in-charge. The contractor shall also furnish monthly account of materials; a separate register shall be maintained on site for recording daily item wise receipt and consumption of Cement, Steel and Asphalt used by him, also item wise consumption of other materials used. This register shall be signed daily by the contractor or his representative and representative of Engineer-in-charge.
3) All the materials required for the work shall be brought by the contractor at his own cost. In each case, certificate for its quality and quantity shall be produced by the contractor at his own cost and the test results of samples shall be supplied to the Department. The material not confirming to the required standard shall be removed at once from the site of the work by the Contractor at his own cost.
4) Testing of all construction material shall be carried out as per required frequency and specifications and the charges for testing shall be borne by the contractor.
5) All the testing charges for mix design etc. if necessary on construction work shall be borne by the contractor.
6) The contractor shall construct shed / sheds as per direction of the Engineer-in-charge for storing the materials brought at site. The material shall be taken out for use in the presence of the departmental representative only.
7) The contractor shall make his own arrangement for the safe custody of the materials which are brought for construction of work.
8) The contractor shall not transfer any material once brought at work site without prior written permission from Engineer-in-charge and for bonafied reasons only.
9) In case the materials brought by the contractor become surplus owing to the change in the design of the work, the materials should be taken back by the contractor at his own cost after prior permission of the Engineer-in-charge.
10) The charge for conveyance of materials from the place of delivery to the site of work and the actual sport on work site shall be entirely borne by the contractor. No claims on his account shall be entertained.
11) The contractor shall furnish the account of cement, steel, asphalt brought by him at each time before placing orders for further supply. Also the same should submit on completion of the work, final account of the materials used by him to the Department. This account will be scrutinised by the Engineer-in-charge.
12) All empty cement bags or empty asphalt drums shall be the property of contractor and the same shall be removed immediately after completion of work.
13) The contractor shall procure the pipes if required for this work from M.S.S.I.D.C. only. Proof of purchasing of pipe should be submitted.
14) Agency shall ensure that the laying temperature of hot mix material shall be as specified and accordingly he shall make arrangements for preventing loss of temperature of hot mix material during transit from location of drum mix plant to work site.
ADDITIONAL CONDITIONS FOR SUPPLY OF BITUMEN:

1) The contractor shall use Bulk Bitumen, VG 30 (60/70) grade received from the Refinery at Mumbai for the Hot mix treatment only. Bulk Asphalt received as above will be entirely consumed at Hot mix plant site.

2) Conveyance charges of Bulk Bitumen, VG 30 (60/70) grade (including loading / unloading etc.) from Refinery at Mumbai to the hot mix plant site will be borne by the Contractor.

3) The Contractor should be aware that delay may occur in getting the bulk asphalt to be supplied at the refinery. They are, therefore, advised to indent for their requirement, sufficiently in advance allow for the period usually taken for supplying Bulk Bitumen.

4) The contractor shall submit periodically as well as on completion of work, on account of all the material issued to him in a manner as instructed by the Engineer-in-charge. In addition, a separate register shall be maintained on site for recording daily item wise asphalt consumption of the work (Giving details of quantities of items of executed and asphalt required for each of them) as directed and shall be signed daily by the contractor or his representative, and got signed daily from the representative of the Engineer-in-charge.

5) The material asphalt shall be made available on working days only during working hours. Bulk Asphalt will be delivered as per the rules of the concerned refinery. The contractors are expected to know all the rules and regulations framed by the refineries in this behalf.

6) Asphalt shall be obtained specified in Schedule ‘A’ only Materials from other source in lieu of the materials in Schedule ‘A’ shall not be allowed except under written permission of the Executive Engineer.

7) Government does not undertake to take from the contractors whether before or after completion of determination of the contract, surplus material which were originally issued to them and charged to their accounts. Such material however, remains the property of the Department and can be taken over by the Department, if required for use on other works in progress only specials arrangement and the prevailing market rate or the rates stipulated in Schedule ‘A’ excluding the element of storage charges of the issue rate of Division excluding the element of storage charges which is lowest.

8) The Contractor shall furnish unstamped receipted of the materials issued under Schedule ‘A’ on the spot in addition to the joint signature on such challans, charts, registers, as may be prescribed by the Engineer-in-charge.

9) In the event of the material issued to the contractor by the Department becoming surplus, to the requirement of works and not returned to the Department (inspite of instructions to return the surplus materials from the Department) recovery at penal rate i.e. the double the rate stipulated in Schedule ‘A’ shall be made from the contractor.

10) Delay in supply of material included in schedule ‘A’ shall not entitle the contractor to claim any compensation. The contractor will however, will be eligible fir extension of time limit on this account.
11) In the event of Asphalt consumed being more than the quantity required as per specifications, recovery at penal rate i.e. double the rate stipulated in Schedule 'A' will be made from the Contractor for the excess quantity of Asphalt consumed.

12) The Contractor should note that the bouzars when received from Mumbai are always unloaded at the plant in the presence of the Jr. Engineer / other representative of the Deptt. during 8.00 A.M. to 6.00 P.M. only. He should arrange to give advance intimation in this behalf to Engineer-in-charge so the arrangement to depute the Jr. Engr. / Representative at the plant site can be made.

13) Since the work lies in busy area the contractor shall have to make adequate arrangement for regulating the traffic by providing barricading whenever necessary and by displaying adequate number of requisite sign, an caution board etc. The work shall have to the planned properly to avoid any inconvenience to the traffic.

15) A register shall be maintained on site regarding daily item wise bitumen consumption of the works (giving details of each item) as directed and shall be signed daily by the contractor or his representative and got signed daily from the representative of the Engineer-in-charge.

16) Contractor Should Submitted Voucher of Purchasing Asphalt
DECLARATION

I/ we hereby declare that I/we have made myself/our selves thoroughly conversant with the local conditions regarding all materials such as stones, murum, sand etc and labour on which I/we have based my /our rates for this Work. The specification, lead & lift for this work have been carefully studied and understood by me before submitting the tender. I/we undertake to use only the best material approved by the Engineer- in- charge or his duly representative before starting the work and to abide by his decision.

I/We shall maintain/rectify the entire work as per standard specification of P.W.D (Red Book) and M.O.R T and .H. specification as soon as damage occurs up to the expiry defect liability period without putting forth any reasons.

I hereby undertake to pay the labourers engaged on the work as per Maharashtra Contract Labour (Regulation and Abolition rule 1971) or at the rate revised by the Competent Authority time to time applicable to the zone concerned.

CONTRACTOR’S SIGNATURE.
FINANCIAL RULE – FORM 2 A  
(See Rule 51-4)  
GUARANTEE BOND FOR SECURITY DEPOSIT.  

In consideration of the Governor of Maharashtra (herein referred to as 'THE GOVERNMENT') having agreed to exempt (herein referred to as 'THE CONTRACT') from depositing with the Government in cash, the sum of Rs. ______________(Rs.______________ only) being the amount of security deposit payable by the contract to the Government under terms and conditions of the agreement dated the ______________ day of __________ and made between the Government on the one part and the contractor on the other part (hereinafter referred to as the "the observance and performance by the Government a Guarantee in the prescribed form a scheduled Bank in India being in fact these present in the like sum of Rs. ______________(Rs._________________________). We ______________Bank / Limited registered in India under Act and having one or our local head office at _______________ do hereby –

   a) Due performance and observance by the contractor of the terms, covenants and conditions on the part of the contractor contained in the said agreement and
   b) Due and punctual payment by the contractor to the Government of all sums of money losses, damage, costs, charges, penalties and expenses payable to the Government by the contractor under or in respect of the said agreement.

2. Under to pay to the Government on demanded and without demure and notwithstanding any court or tribunal relating there to the said sum of Rs. __________ (Rs._________________________ only) or such less sum may be demanded by the Government from us our liability hereunder being absolute and unequivocal and agree that –
   (A) The guarantee herein contained shall remain in full force and effect during the subsistence of the said agreement and that same will continue to be enforceable till and all the dues of the Government under or by virtue of the said agreement have been duly paid and its claims satisfied or discharged and till the Government certifies that the terms and conditions of the said agreement have been fully property carried out by contractor.

   (B) We shall not be discharged or released from the liability under this Guarantee by reasons of –
      (i) Any change in the constitution of the Bank or the Contractor or,
      (ii) Any arrangement entered into between the Government and the Contractor with or without our consent.
      (iii) Any forbearance or including shown to the Contractor.
(iv) Any variation in the terms, covenants or conditions contained in the said agreement.
(v) Any time given to the contractor or –
(C) Our liabilities hereunder shall be joint and several with that of the contract as if we were the principal debtors in respect of the said sum of Rs. __________(Rs. ______________________only.

(D) We shall not revoke this guarantee during its currency except with the previous consent in writing of the Government IN WITHNEES WHERE OF The Common Seal of ______________ has been here into affixed this day of __________________ The common seal of __________________ was pursuant to the resolution to of the Board of Directors of the company dated the __________ day of ______________ herein affixed in the presence of who in token have here to set their respective hands in the presence of –

ANNEXURE – A

Accompaniment to Govt Resolution No 12001/SH-2/Pk-4 Mumbai dt 24.1.2001

SPECIFICATIONS FOR BITUMINOUS BOUND MACADAM

Item Providing and constructing 75 mm thick bituminous bound macadam (BBM) road surface including supplying all materials, preparing the existing road surface, spreading 40 mm stone metal layers, 30% crusher broken metal + 70% Hand broken (by breaking rubble obtained by blasting) heating and spreading the bitumen 60/70 @ 2 kg/sqm, spreading 12 mm size chips, compacting with power roller etc. completed

(a) Including picking of existing WBM surface.

(b) Including applying tack coat at the rate of 50 Kg/100 m² on BT Surface.

1. General

The work consists of supply of all materials and labour required for providing and laying bituminous bound macadam surface for compacted thickness of 50/75 mm. The item includes preparing the existing road surface to receive the bituminous bound macadam course, spreading of 40 mm size hand broken metal laying in required thickness with compacted with static roller, heating and spraying bitumen with equipment plant etc. spreading key aggregates, 12 mm chips and final compaction with static roller etc. complete. The work shall be finished in accordance with the requirement of this specification and in close conformity with grades, lines, cross sections and thickness as per approved drawings or as directed by the Engineer in charge.

2. Diversions

Temporary diversions shall be constructed and maintained by the contractor at his own cost. Diversions shall be watered if dust is likely to blow on to the road being bituminised.

3. Materials:

A) Aggregates: The aggregates for providing B.B.M. surface shall comply with specification Nos. Rd-41 for 40 mm and 12 mm size metal, and shall normally comply with the following according to size and quality of aggregate and grade and quantities of bitumen:

<table>
<thead>
<tr>
<th>Description</th>
<th>Rate of application for 100 Sq.m.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>75 mm</td>
</tr>
<tr>
<td></td>
<td>On asphalt surface</td>
</tr>
<tr>
<td>a) 40 mm size hand broken metal</td>
<td>9.00 Cum</td>
</tr>
<tr>
<td>b) 12 mm size chips</td>
<td>1.80 Cum</td>
</tr>
<tr>
<td>c) Bitumen for grouting I.S penetration or S.65 with (60/70 grade) penetration</td>
<td>200 Kg</td>
</tr>
<tr>
<td>d) Tack coat for existing bituminous surface with 60/70 bitumen</td>
<td>50 Kg</td>
</tr>
</tbody>
</table>
4. Preparing the base:

Any pothole in the existing bituminous road surface and broken edges shall be patched well and the surface shall be brought to correct level and camber with additional metal and bitumen as required which will be paid separately. Before starting the work the bituminous surface shall be swept clean of all the dirt, mud cakes, animal droppings & other loose foreign material.

If so required by the Engineer, the contractor shall keep the side width & nearby diversion watered to prevent dust from blowing over the surface to be bituminised. Existing water bound macadam surface shall be picked for and surface loosened for a depth of 2.5 cm and the picked surface shall be brought approximately to the correct camber and section. Edge line shall be correctly marked by dog belling the surface to form a continuous the notch.

There shall always be sufficient length of prepared surface ahead of the bituminous surfacing operations as directed by the Engineer to keep these operations continuous.

5. Tack coat on bitumen surface:

Applying tack coat for existing B.T. surface only at the rate of 50 Kg/100 m2 as per specification No. RD 47.3.3.

6. Picking of existing W.B.M. Surface:

Picking of existing W.B.M. surface for receiving bituminous bound macadam as per Rd 33.

7. Spreading and Compaction:

7.1. Spreading of 40 mm metal:

40 mm metal shall be spreaded only at the specified rate of 9 cubic metric / 6 cubic metre per 100 sqm of area so as to form a layer over the width of road correct camber / super elevation as required. Any foreign matter, organic matter, dust, grass etc. shall be removed immediately. The sections shall be checked with camber board and straight edge batten etc. Any irregularities shall be made good by adding aggregates in case of depressions and removing aggregates from high spots checked with camber board and straight edge batten etc. Any irregularities shall be made good by adding aggregates in case of depressions and removing aggregates from high spots.

7.2. Compaction of 40 mm size metal:

The surface of 40 mm metal layer after bringing it to necessary grades and sections shall be rolled with the use of 8 to 10 tonnes power roller. Rolling shall commence from the edges and progress towards centre longitudinally except on super elevated portion it shall progress from the lower to upper edge parallel to the centre line of pavement. When the roller has passed over the whole area any high spots or depressions, which become apparent shall be corrected by removing or adding aggregates. The rolling shall then be continued till the entire surface has been rolled to desired compaction such that there is no crashing of aggregates and all roller marks have been eliminated. Each pass of roller shall uniformly overlap not less than one third of the track made in the preceding pass.

8. Application of Bitumen:

Bitumen of I.S.grade 60/70 grade supplied for the work shall be heated to temperature of 177 Celsius to 191 Celsius (350 F to 375 F) in a bitumen boiler and temperature shall be maintained at the time of actual application. The hot bitumen shall be applied through a pressure sprayer on the road surface uniformly at the rate of 200 Kg / 100 Sqmt. The road surface shall be divided into suitable rectangles marked by chalk so as to ensure correct rate of application of the bitumen.

9. Key Aggregates:

On completion of bitumen application, 12 mm size key aggregate shall be spread immediately at a uniform rate of 1.8 cubic meter / 1.2 cubic metric per 100 square meter of area when entire surface is in hot condition. Brooms shall be used to ensure even distribution of key aggregate.

59) Final Compaction:
Immediately after spraying of bitumen and spreading of key aggregate, the surface shall be rolled with a power roller to obtain full compaction and to force the blind age of key aggregates into the interstices of the coarse aggregate. The rolling shall continue till the asphalt surface hardens and key aggregates stop moving under power roller.

11) Surface finish and quality control.

The surface finish shall conform to requirements of clause 902 of specifications for Road and bridges by Ministry of Surface Transport (copy enclosed). Quality Control Test and their frequencies shall be as per table below:

<table>
<thead>
<tr>
<th>Sr.No</th>
<th>Test</th>
<th>Frequency</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Quality of binder</td>
<td>Two samples per lot to be subjected to all or some test as directed by the Engineer</td>
</tr>
<tr>
<td>2</td>
<td>Aggregate Impact Value</td>
<td>One test per 200 cubic meter of aggregate.</td>
</tr>
<tr>
<td>3</td>
<td>Flankiness Index and Elongation Index</td>
<td>One test per 200 cubic meter of aggregate.</td>
</tr>
<tr>
<td>4</td>
<td>Stripping value</td>
<td>Initially one set of three representative specimen for each source of supply subsequently when warranted by changes in the quality of aggregate.</td>
</tr>
<tr>
<td>5</td>
<td>Water absorption of aggregates</td>
<td>Initially one set of three representative specimen for each source of supply subsequently when warranted by changes in the quality of aggregate.</td>
</tr>
<tr>
<td>6</td>
<td>Aggregate grading</td>
<td>One test per 100 cubic meter of aggregate.</td>
</tr>
<tr>
<td>7</td>
<td>Temperature of binder at application</td>
<td>At regular close intervals.</td>
</tr>
<tr>
<td>8</td>
<td>Rate of spreading for binder</td>
<td>One test per 500 square meter of area.</td>
</tr>
</tbody>
</table>

12) Items to include:

(i) Diversions unless separately provided in the tender.

(ii) Preparing the road surface.

(iii) Applying tack coat on existing B.T. or picking the existing W.B.M. surface.

(iv) Supplying spreading and compaction of 40 mm and 12 mm size aggregate. Supplying heating and spraying bitumen.

(vi) Supplying, spreading and compaction of 12 mm size chips. (By Power roller)

(vii) All labour, materials, including bitumen and aggregates used of tools, plants and equipment for completing the item satisfactorily.

13) Mode of Measurement and payment: The contract rate shall be for 1.00 Sqm. The measurements shall be for the width of the road as executed, limiting it to the width specified or as ordered by the Engineer and the length measured along the CENTREline. The measurement dimensions shall be recorded correct up to two places of decimals of a meter and the area worked out correct up to one place of decimal of a Squm.
